## LAND FRAUD CASE ON FOR SATURDAY

COURT WILL HEAR FURTHER  
ARGUMENTS THEN

### DEFENSE IS LIMITATIONS LAW

Attorney Declares Case has Outlawed  
and No Offense is Charged  
By State

MADISON, Wis., Nov. 7.—(Special.)—At the conclusion of the arguments last night in federal court in the preliminary hearing of S. G. Moon and J. T. Barber, of Eau Claire, indicted in connection with alleged Idaho land frauds, Judge J. V. Quarles announced that a further hearing of the arguments would be at Milwaukee on Saturday. He said, however, that in all probability the decision in the case would not be announced at once, but would be filed later in the court here.

The only argument heard yesterday was that of Attorney Bundy of the defense. Saturday United States District Attorney Wheeler will make his argument for the government. It is probable at that time that the Idaho attorney, who secured the indictment, will be present to present the law in the case.

Attorney Bundy has a motion pending to dismiss the case against Messrs. Barber and Moon, on the ground that the indictment states no offense. He further declared that the indictment states Sept. 21, 1901, as the first overt act of conspiracy committed and said that under numerous decisions of the United States courts, this alone was sufficient to lead to the dismissal of the charges, as the statute of limitations precludes a prosecution on an offense committed, after three years is passed.

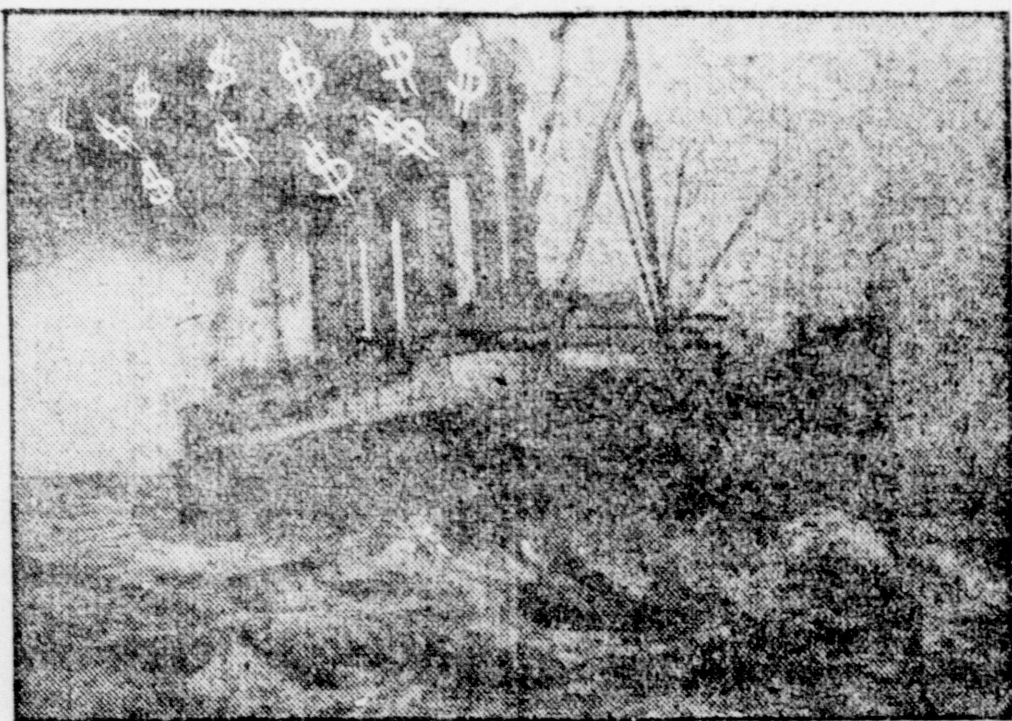

In the course of his remarks he scored the present practice of filing charges against men, dragging them off to some distant court for trial, and then finding they were innocent of the offense. He thought that the government should be compelled to prove by more evidence than the mere indictment, which has heretofore been sufficient to send a man to trial, that the offense had been committed by specifically giving the evidence and acts.

"If the courts holds that he believes the indictment to be good and refuses to release these prisoners on the writ of habeas corpus, then we are entitled to a full hearing before these defendants can be ordered to go to Idaho for trial," declared Attorney Bundy. "There is plenty of time for this as the federal court of Idaho will not meet again until next March. Should the judge refuse to dismiss the proceedings probably over 100 Idaho men will have to be subpoenaed to come here to give evidence before the court decides on the taking of these defendants.

"The court can then decide whether there is enough basis to these indictments. We contend, however, that the indictments state no offense and are outlawed and for that reason the complaints should be dismissed at once."

MILWAUKEE PAPER ANNOUNCE  
HIS COMING NOV. 14

### THERE MAY BE A MISTAKE

If This City Has Been Included in  
His Itinerary Local Democrats  
Have Not Been Informed

William Jennings Bryan is booked for an address in La Crosse on Thursday evening, Nov. 14, according to announcements which appeared in Milwaukee papers yesterday and today. La Crosse was scheduled to hear the Silver Tongued Orator of the Platte during the Wisconsin trip.

The selection of La Crosse as one of the places where Bryan will deliver an address comes unknown to local democrats and also as a complete surprise. When negotiations were entered into a few months ago to secure Bryan to give an address here, announcement was received that the speaker would be unable to accommodate the local members of his party. This was received with regret, and all plans for a reception and gala democratic day were dropped.

Now comes the news from Milwaukee that Bryan will make an address here, and that the date is set for Friday evening, Nov. 9.

"There must be some mistake," said John F. Doherty, city attorney, and chairman of the democratic county committee. "From the correspondence I had, Mr. Bryan will not come to La Crosse.

"I have heard nothing of the announcement that he will come."

The itinerary planned for Bryan follows:

Monday evening, November 11, Milwaukee; Tuesday afternoon, November 12, Waukesha; Tuesday night, November 12, Fond du Lac; Wednesday and Thursday, November 13 and 14, Beaver Dam and La Crosse; Friday evening, November 15, Green Bay; Saturday afternoon, November 16, West Bend; Saturday evening, Oshkosh.

In the eastern section of the state, in the vicinity of Milwaukee, big receptions will be tendered the former presidential candidate of the democratic party. Addresses and receptions have been arranged in Milwaukee, Waukesha and Fond du Lac, and it is expected the gatherings will outclass any others in the state.

## ELECTION PLEAS PRESIDENT—ALL BUT CLEVELAND AND N. Y.

WASHINGTON, D. C., Nov. 7.—A statement was issued at the white house today declaring that President Roosevelt regards the result of the election as extremely gratifying. He sent a letter of hearty congratulations to Henry, San Francisco, on the result in that city. Henry is the famous attorney who has lead the prosecution of "Frisco grafters," and who has prosecuted the western land sharks for the government in these states.

## TELEGRAPHERS TO "SUSPEND" STRIKE

BUT CLOWRY DENIES CLAIM OF  
UNION CONCESSIONS

### AN OFFICIAL ANNOUNCEMENT

Men are Notified That the National  
Vote on the End Will  
be Taken.

CHICAGO, Nov. 7.—Official notice that the telegraphers' strike has ended will be sent out sometime today. All the strikers will be told that they can return to work without disobeying the union rules.

Statistics of the strike show that the duration of the strike was 89 days; the number of operators involved in America was 15,000, and in Chicago alone 2,000. The number of desertions was 1,500; operators securing work in other fields, 5,000; positions to be filled, 7,000; loss to the companies \$5,000,000; estimated loss of wages to the men, \$2,250,000.

Clowry Denies Since.

NEW YORK, Nov. 7.—President Clowry, of the Western Union, denies the story that a truce has been entered into between the strikers and the company and says the men must make individual applications for reinstatement.

Call It "Suspension."

Significance is attached to the fact that notices are being sent to the locals all over the country today by the telegraphers, by the national executive committee, for a vote tomorrow on a proposition to "suspend" the strike, but nothing is said about calling it off permanently. It seems certain tomorrow's vote will give the two-thirds vote necessary to call off the national strike.

Notwithstanding the denial of President Clowry of the Western Union that any negotiations have been consented to, assurances were made by the union officers that after the return to work the companies would grant the union demands for an eight hour day and free typewriters. The passage of the resolution caused a distinct feeling of relief. It was voted to give up Uhlch's hall, the stronghold of the strikers since the first days of the strike, and to hold no more mass meetings.

Will Play Fair.

"We will not discriminate against any of the strikers," said Manager Cook of the Chicago Western Union office, "but no non-union men will be discharged to make room for those who are returning to work. We can't place all the strikers at once, but our force of operators will be increased as business requires."

## WALTER TECHMER DIES THIS MORNING

After an illness of eight weeks with heart trouble, Walter Techmer, son of Contractor Frank Techmer, died at 10:30 this morning at his home, 1216 Jackson street. Mr. Techmer was taken sick about eight weeks ago at St. Paul, where he was employed as stenographer and book-keeper for the St. Paul Gas Lighting company and was removed to his home in La Crosse about a month ago. He began to improve until last Saturday, when he suffered a paralytic stroke, from which he never recovered.

## GAS FLOW STOPPED; HANDS ROUTED OUT

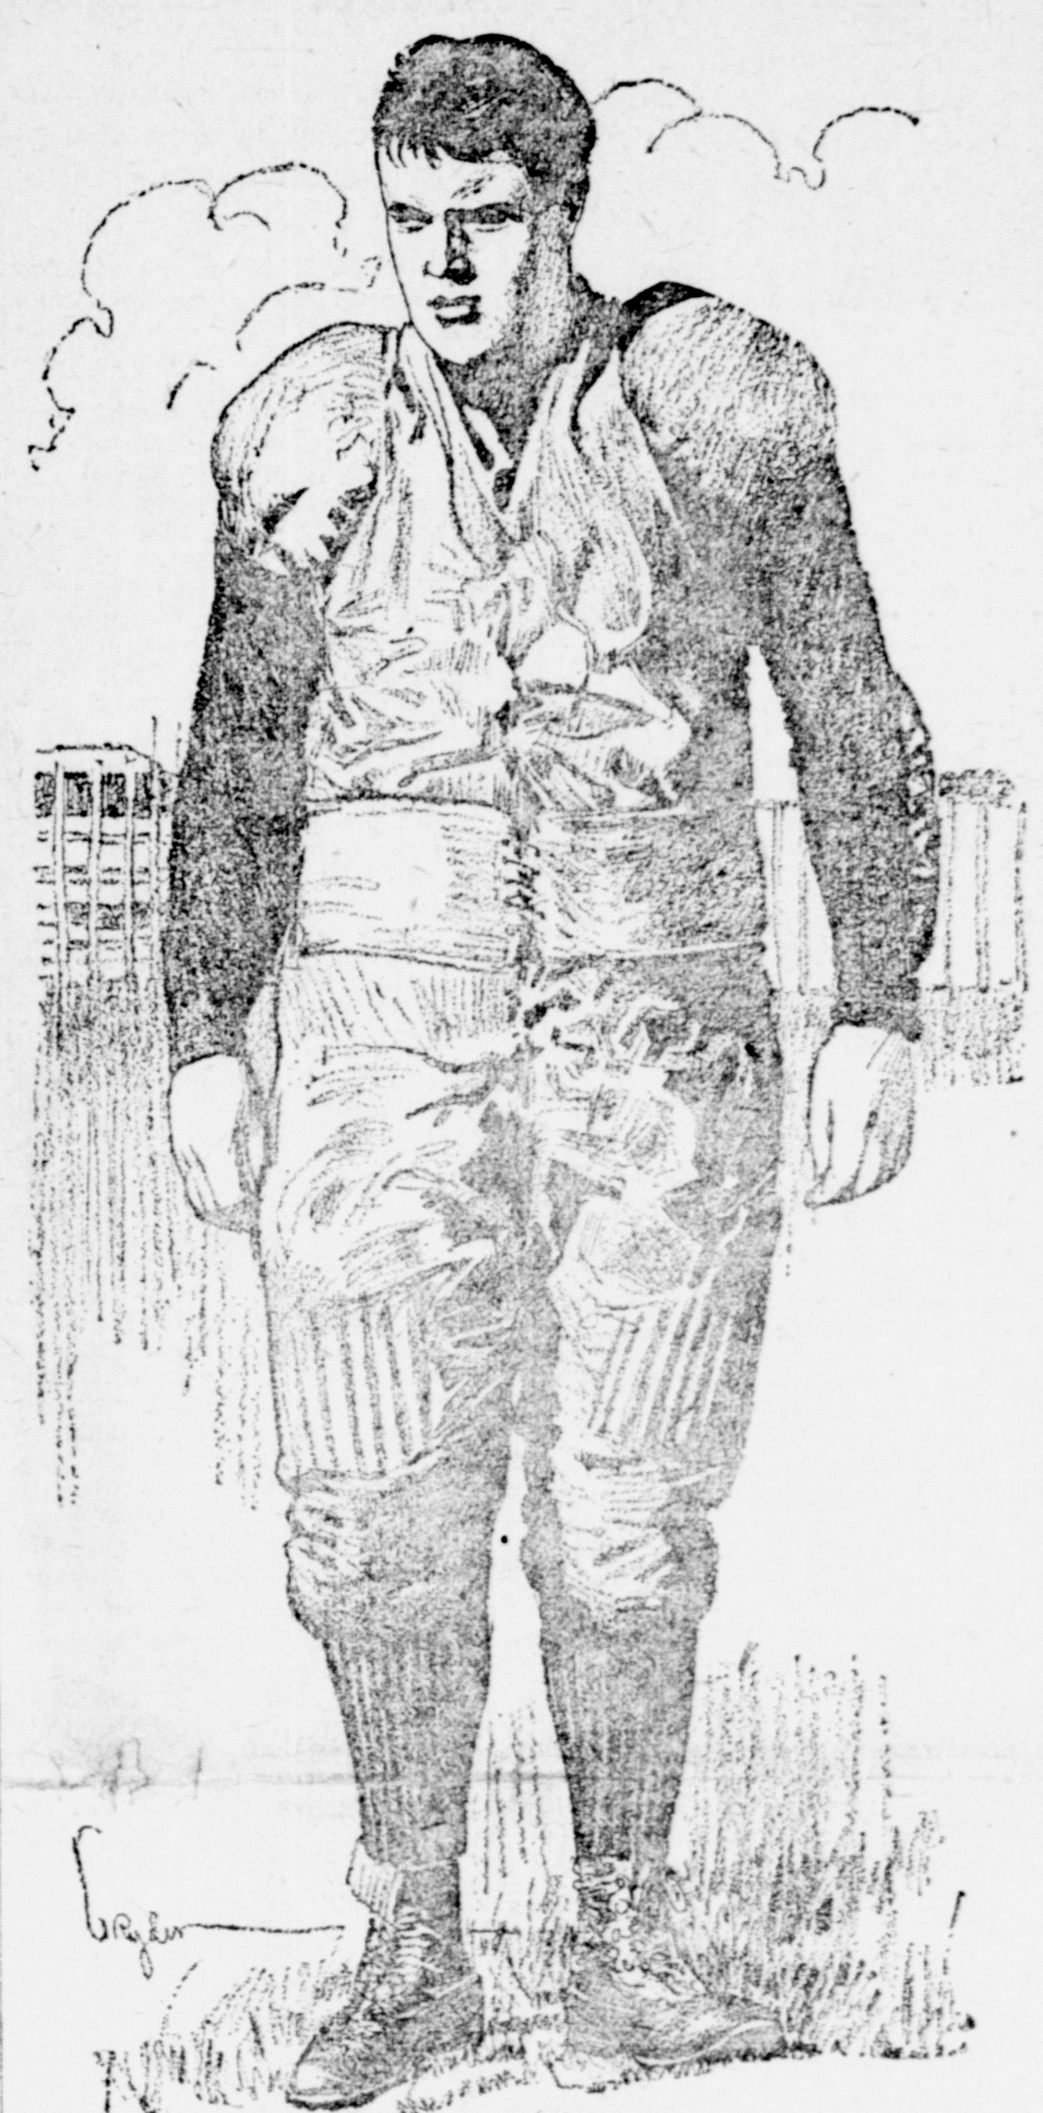

For some mysterious cause the flow of gas into the mains was cut off last night at the gas house of the La Crosse Gas & Electric company. As a precautionary measure the officials caused all subscribers who could be reached on telephones to be called up and warned to turn off all jets, and the field force was routed out to go from house to house where telephones were not available. The work of starting the current was but a moment's matter, as an emergency pipe leads past the governor to the mains, and can be turned on immediately. The cause of the stoppage had not been learned at 3 o'clock, and the channel running through the governor will not be again used until the mystery is solved.

## QUAKE OPENS EARTH AND HAVOC REIGNS

MADRID, Nov. 7.—An unknown number of people dead and great property damage resulted from a violent earthquake at Torra La Ribera, in the province of Huesca. The earth opened, leaving great fissures. The disturbance was accompanied by subterranean rumblings, causing a great panic. Huesca has an area of 5,872 square miles, and a population of 275,000. It is in the northern part of Aragon, bounded on the north by France and on the east by the province of Lerida.

"White Plague"

The annual meeting of the Medical society of the Seventh district of Wisconsin convened this afternoon at 2 o'clock in the small council chamber at the city hall.

Dr. A. L. Beuffer of Chicago gave an address and was followed by Dr. Edward Evans of La Crosse, on "The Medical Defense for Members of the Wisconsin State Medical Society."

Both addresses were greatly appreciated.

Officers were elected and the place of the next meeting chosen, late this afternoon.

The convention was well attended, about fifty physicians and surgeons being present.

The convention will continue this evening at a free lecture on "The White Plague," which will be delivered by Dr. Beuffer of Milwaukee.

A paper on "Quackery" will be read by Dr. E. A. Reed.

Neillsville Woman Who Got Separation Here Last Monday Must

Securing a divorce from her husband, through Justice Fruit in this city last Monday, Ida Reig, who lives near Neillsville, was refused a license to be married to George Frei, of the same place, when they slipped into the Gate City on a Green Bay train for that purpose yesterday.

Mr. Frei and his intended bride appeared at the Winona court house to get a marriage license, driving directly to the court house in a carriage from the Green Bay passenger station. All went well until Clerk Fakler inquired as to whether or not either of the applicants had been divorced.

The bride-to-be very honestly told Clerk Fakler that she had secured a divorce from her husband and when the clerk asked for the date of the decree, Mr. Frei produced a document signed by Judge Fruit of La Crosse bearing date of Nov. 4, 1907.

"I am sorry," said the clerk, "but I will have to refuse to issue the license on the ground that the divorce has been issued less than six months."

Clerk Fakler told the couple that they could go to Iowa and be wedded at once but from their conversation it was plain to see that they intended to wait six months.

### TROUBLE STARTED IN CITY

And Action of Local Union Has Caused  
Brick Layers on Other Big  
Jobs to Be Called Off

The National Bricklayers' union, as a result of misunderstanding which occurred during the erection of the large Michel Brewing company's building at South Third and Division streets, has placed the Groff & Derr Construction company of La Crosse in a great predicament, so that they are now unable to secure sufficient bricklayers with which to carry on an enormous amount of work for which they have contracted along the Mississippi valley.

The union has called off its men at Clinton, Ia., and at Burlington, Ia., and other points.

At Clinton Groff & Derr are erecting a large hospital, and at Decatur, Ill., they have been awarded the contract for a \$125,000 Knights of Pythias temple. They also have some work at Tomah.

It is said that all these jobs will be hindered.

Fred Gelwitz, foreman of the bricklayers at the Michel building, today said:

"I understand that the union has called off their men at Burlington and at Clinton and also on a contract which Groff & Derr have in Illinois.

"The trouble started in this way: Groff & Derr had the contract for installing the foundation and footing in the bottling department which is to be erected in the west

## PREPARE PETITION TO RY. COMMISSION

MERCHANTS ACT ON IMPROVE-  
MENT OF SERVICE

### THANK ASSEMBLYMAN EKERN

At Meeting this Morning Matter of  
Securing Change in Time of S. M.  
Trains is Also Acted Upon

A resolution, thanking Terman L. Ekern, speaker of the lower house of the Wisconsin legislature, for the work he has done to secure better railroad transportation facilities, between La Crosse and points in Trempealeau valley, and a request to Attorney E. C. Higbee to draw up the petitions to be presented to the Wisconsin railroad and rate commission, was passed at a meeting of La Crosse merchants this morning. The meeting was held at the New La Crosse club.

The passage of the resolution, which means much to La Crosse in increased trade which now goes to Winona, Minn., was made unanimously. All present were acquainted with the import of the resolution, and were further informed by William Doerffinger, who is taking an active part in the campaign.

Want S. M. Change.

Another problem of transportation which means much to La Crosse—the changing of time on the Southern Minnesota division of the Chicago, Milwaukee & St. Paul road—also was taken up and given its initial impetus. A second petition will be circulated with that of Speaker Ekern, asking the Milwaukee road officials to change the time on the Southern Minnesota division to allow shoppers an entire day in La Crosse.

Attorney Higbee will proceed to draw up the petitions this afternoon or early tomorrow morning, and they will be placed in circulation immediately. Then they will be presented to the rate commission by Speaker Ekern. Attorney Higbee probably will assist him.

In drawing up the petition, Attorney Higbee will include the Chicago & Northwestern, the Green Bay, Winona & Western, and the Chicago, Burlington & Quincy, so that the state rate commission will settle the question for all roads at one time.

"Every line of business in La Crosse was represented at the meeting," said Mr. Doerffinger. "I estimate that forty merchants or more were present and their action was unanimously in favor of the Trempealeau valley project.

"The merchants appear to realize the importance of the movement and have given their assistance with a glad hand.

"On the Southern Minnesota problem, the petition will be presented to the Milwaukee road officials. If La Crosse is refused a change in time, to bring a morning train here, and another leaving in the afternoon or evening, an investigation will be conducted by La Crosse merchants to ascertain if the demands are unreasonable or unfair. If this is found not to be the case, the petitions will be presented to the Wisconsin railroad and rate commission for action."

No trains on the Southern Minnesota division reach La Crosse in the morning now. The first train arrives at 3:45 o'clock in the afternoon, and the second at 11:20 o'clock at night. The trains leave at 10:40 o'clock in the morning, and at 7:20 o'clock in the morning.

The next move will be the circulation of the petitions and the presentation to the state rate commission.

### WANT JEFFRIES TO MEET JACK JOHNSON

SAN FRANCISCO, Cal., Nov. 7.—If it is a question of money that is keeping James J. Jeffries, champion of champions, from re-entering the ring and taking on Jack Johnson, colored heavyweight and probably the only man in the big division that can give Jeff any kind of a fight, a match between these two can be considered as well as made.

Another effort is now being made to induce Jeff to reconsider his determination not to box a colored man and to take on Jack Johnson in a forty-five round fight on New Year's afternoon.

Jimmy Cofforth has announced that he will leave soon for Los Angeles, where he will see Jeffries and put the proposition up to the champion in such a straight manner that he will either have to emerge from retirement or pass up the fighting game forever.

### ERNEST GETTS GETS 234 SCORE

The highest score rolled at the Hunt bowling alleys during the past week was rolled by Ernest Getts, who succeeded in getting 234 pins out of a possible 300. This is considered an excellent score and will probably stand for the \$5 in gold for the highest score of the season. The following are the players getting a score of 200 or more during the past week: F. Stender, 217,

222, 210; F. Kerpin, 218, 215, 215; W. Witt, 210; E. Weston, 200; D. Hanson, 219, 215, 208, 203; E. Yehle, 215; F. Hass, 201; T. H. Watkins, 200; M. Lennon, 201; H. McKee, 210; E. Getts, 234.

### JUDGE REFUSES TO PREVENT FOOTBALL

KANKAKEE, Ill., Nov. 7.—Judge Hooper in the circuit court here denied Attorney Steven R. Moore's application for an injunction restraining the playing of football by high school students on the ground that it is prizefighting. Attorney Moore declares he will appeal the case. Judge Hooper ruled that the boards of education have no right to interfere with pleasures or training of school children after school hours, and that the private citizen has no right to interfere in such questions unless he has sustained some pecuniary injury.

### FRESHIES BEAT "U. W." REGULARS

MADISON, Wis., Nov. 7.—The freshmen showed the varsity up in a bad light tonight by scoring 9 points in less than fifteen minutes, on a touchdown by Dean and a place kick by Moll from the twenty yard line. The first year team proved expert at the art of handling forward passes, using a double pass to advantage.

The varsity was unable to do anything until after the place kick by Moll. Then the regulars settled down to business, rushed the ball down the field on line plunges, and scored two touchdowns through Boyle, tackle, and Whitmore, half-back. Later Whitmore, Lowman, and Steinhm got away for runs which looked good for touchdowns, but the coaches called them back.

### LA CROSSE GOES TO WINONA SATURDAY

WINONANS PREPARE RECEPTION AND DANCE

WILL ENTERTAIN THE GUESTS

Local School, However, Expects to Put a Crimp in Their Gate City Adversaries.

After being given a rest Monday night to recuperate from the effects of the Eau Claire game last Saturday, the La Crosse high school football eleven donned their suits last evening and started preparation for the game next Saturday against the Winona High school at Winona.

The game with Winona has become an annual event and a great deal of interest is taken in the game. Last year the game was played at La Crosse and the Winona players were forced to return home suffering a severe defeat. They have promised revenge in the game next Saturday, although from the preceding games, La Crosse looks forward to an easy victory.

Winona has made considerable arrangements for the game and will tender the La Crosse team and their rooters a grand reception. The Odd Fellows hall has been secured by the Winona school and a dance will be given following the game.

### WESTERN LEAGUE JOINS IN PROTEST

KICKS ON DRIFTING OF PLAYER BY BOSTON

ROW OVER PLAYER O'NEILL

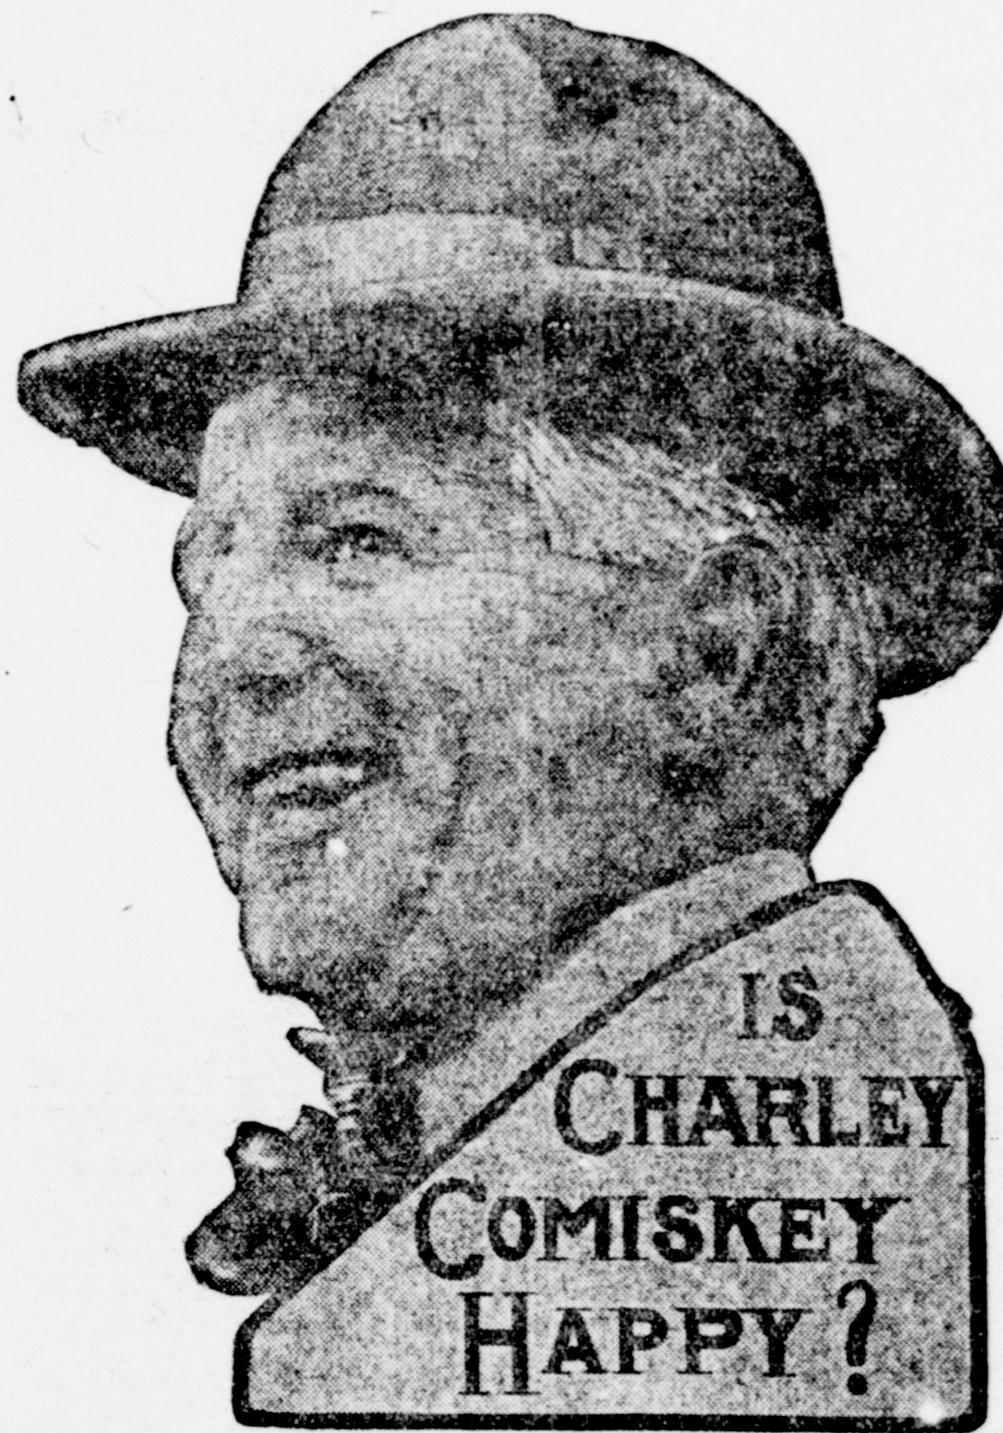

American Association Has a Similar Case—Big League Men in New Trades

MILWAUKEE, Nov. 7.—President Norris O'Neill of the Western league has made a strenuous protest against the action of the Boston Nationals in drafting Pitcher William McCabe from the Steubenville, O., club of the O. & P. league. O'Neill says that McCabe was a member of the Sioux City team of the Western league in 1906, but jumped his contract and went to the Lancaster club of the Tri-state league, an outlaw organization. During the winter a rule was passed making all contract jumpers from national agreement clubs outlaws for life. Last season McCabe went to the Steubenville club. O'Neill now claims that if McCabe is eligible to play with national agreement clubs he still is an asset of the Sioux City team, and O'Neill will demand that the national commission return the player to his organization.

The American association has a similar case. It concerns Pitcher W. J. Campbell, bought by Cincinnati from the Harrisburg, Pa., club. Louisville claims the player, and has asked for a rehearing.

Harry Niles, second baseman; Charley Hemphill, center fielder, and Fred Glade, pitcher, of the St. Louis American league team, have been traded to the New York Americans in exchange for Jimmy Williams, Danny Hoffman and Hobe Ferris. The New York team bought Ferris from the Boston Americans on Monday. Niles will cover second in place of Williams, and Hemphill will play center in place of Hoffman.

The best way to make money speculating is to bet against your own judgment.

Although Comiskey and his Chicago White Sox failed to even qualify for the world's championship baseball series this year, nevertheless the owner of Chicago's American league team is wearing that same satisfied smile which adorns the countenance of the magnates in the big leagues.

The season from a financial standpoint has been the greatest overwhelming success ever registered in the history of baseball. The total receipts from the world's championship series of games alone this year amounted to \$101,728.50, and but five games were played. These figures are typical of the income which all of the big league clubs have derived. Comiskey's White Sox have been particularly prosperous. This is due to the fact that they were the world's champions of the year before and made the desperate, although losing fight, for the American league pennant this year as well. They were drawing cards wherever they went.

Owners of big league clubs return chilly responses when asked for actual figures. Just at present they are putting in their spare moments figuring out the season's dividends.

The net earnings of any one of the big clubs, however, are known to be enormous. As above stated, the total receipts from the world's series games alone this year amounted to \$101,728.50. This figure is so large and the divisions of the sums among the players and the contesting clubs as well as the national commission was of such generous proportions that the public gets some faint idea of what the clubs earn throughout the whole season, but no finite figures have ever been made public on this subject. In fact it is not likely that anyone except those on the inside know anything authentic as to the earnings of the clubs individually or what the public spends on the national game as a whole.

The owners of the clubs declare the matter is something entirely personal and private and they have no intention of taking the public into their confidence. At the present time probably few of the clubs know exactly what they have earned this last season, for their fiscal year is not up yet and until it is and the statements compiled and presented at the annual meetings even the stockholders only have a vague idea as to the status of affairs. The clubs of course are all compelled to carry large reserves, for their expenses run along more or less throughout the whole year and they are particularly heavy for several months before the opening of the season when all of the training expenses are incurred and there is no revenue coming in.

## GOOD BLOOD

### NATURE'S PROTECTION AGAINST DISEASE

The preservation of health and prevention against disease is almost entirely dependent upon pure, healthy blood; every organ, tissue, nerve and sinew of the body draws on this vital fluid for nourishment and strength. Poisons, humors and germs from various sources often get into the blood, and then this great life-stream becomes a source of infection and disease, instead of a nourishing, health-sustaining fluid. Heredity is likewise an important factor, regulating the quality of the blood. Some persons are born with tainted blood from diseased ancestry, and Scrofula in one of its numerous forms is sure to crop out some time in life. Not only poisons in the blood are responsible for disease, but when the circulation is run down and becomes poor and weak in quality, then we see the effect in a general bad condition of health, such as weakness, sallow complexions, boils, and various skin eruptions. All blood troubles require a tonic and blood purifier, and none other equals S. S. S. It goes down to the very foundation of the trouble, and removes every particle of the poison or impurity from the blood. And not only does S. S. S. antidote the poisons, humors and germs, but it possesses health-giving, tonic properties, which build up and strengthen weak, impoverished blood, and fortifies the system against disease. S. S. S. permanently cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Eczema, Tetter, and all other skin diseases and disorders. Book on the blood and any medical advice free.

### THEIR LOYALTY IMPUGNED.

There has been told in this office  
a story to the effect that the job-  
bers of La Crosse are interesting  
themselves in the effort of the North-  
western and Green Bay railroads to  
prevent a ruling by the state commis-  
sion directing that these rail-  
roads put into operation train sched-  
ules providing suitable connections  
between the towns in the Trempea-  
leau valley and La Crosse. The rea-  
son assigned is that their commercial  
salesmen can make better time visit-  
ing the towns in question under the  
present schedule. We cannot  
credit this statement.

The jobbers of La Crosse—they  
are well known and highly respect-  
ed—are rated among our most pro-  
gressive and public spirited citizens.  
Granting that the small inconveni-  
ence, involving some little expense  
to them, does exist, they cannot just-  
ly be regarded as men who would  
let so comparatively unimportant a  
consideration induce them to ob-  
struct a program that means an im-  
mense advantage, year in and year  
out, to the city in which they have  
the honor to reside. We shall not  
even insult them by inquiring as to  
the truth of so unfortunate a rum-  
or.

### A WORTHY ENDEAVOR.

The first individual effort of the  
men who are engaged, through the  
board of trade and manufacturers'  
and jobbers' union, in seeking to  
promote the sale of home products,  
is now on in behalf of the Summit  
Stove works.

That is a good place to begin, for  
their product has been passed upon  
all over the country and declared to  
be first class. The company has  
done something that not all manu-  
facturers in La Crosse have done—  
it has spent money to advertise and  
bring its output before the people.  
It is well introduced, and therefore  
should be easy to push.

The Tribune cannot too strongly  
urge co-operation in this effort on  
the part of both citizens and retail-  
ers. The Summit furnaces, stoves  
and ranges are surpassed by none,  
equalled by few. The firm is deliv-  
ering the goods. It is employing a  
big force of MEN and spending  
money freely in La Crosse. It is  
entitled to the local trade. "Render  
unto Caesar the things that are Cae-  
sar's." Buy your furnaces and  
stoves and ranges from the Summit  
Stove Works, La Crosse, Wis., U.  
S. A.

### THE TRIUMPH OF LICENSE.

The victory of Tammany over the  
Hearst-Republican fusionists in New  
York city is to be regretted. It  
wasn't an "unholy alliance." The  
men of the Hearst Independence  
league have proved that they are  
good citizens. Lots of them are re-  
publicans who, had Roosevelt's in-  
fluence predominated exactly in New  
York affairs, would not have forsak-  
en his party. The republicans are fair-  
ly represented by Governor Hughes.

## MEN OF NOTE

His Majesty King Chulalongkorn  
of Siam, who has so recently been  
interesting Europe with the splendor  
of his crown jewels and the extrava-  
gance with which he has been  
spending the royal income, was born  
on September 21st, 1853 and is the  
eldest son of the late King Maha  
Mongkut, whom he succeeded upon the  
throne on October 1st, 1868.

King Chulalongkorn is a tall and  
fine looking specimen of an Oriental  
monarch. Recently he celebrated his  
birthday in Germany and the  
people of various cities were treated  
to wine and good things to eat at  
his majesty's expense. He has a  
number of wives of whom, however,  
only one has the rank of Queen.

and there was nothing incongruous  
in the alliance.

Now it is said that "somebody  
will have to explain." That is al-  
ways true when a fight is lost.

Stoessel, the discarded hero of Port  
Arthur, would have had nothing to  
explain had his heroic defense been  
successful. The simple fact about  
the New York affair is that licen-  
siousness in politics has again  
triumphed over good government.

### FIND OUT TONIGHT.

Do you know there are hundreds  
of cases of tuberculosis right here in  
La Crosse?

Do you know that the suffering  
and hardship aside, they are costing  
this community thousands of dollars  
annually?

Do you know that all this can be  
prevented by concentrated public ac-  
tion?

This is a brief statement of the  
case. Attend Dr. Beffell's lecture at  
Travelers' hall tonight and learn how  
to help exterminate the greatest  
curse of modern civilization.

### A PROPER CONCLUSION.

Tom L. Johnson is still mayor of  
Cleveland. That is as it should be,  
we believe. Johnson has been a  
power for good there. He has been  
a thorn in the side of the republicans  
because it is hard for political parti-  
sans to recognize good in one of an  
opposing party.

Not for Cleveland, it is reasonably  
believed, but for the advantage to  
the national republican party that  
rests in the control of a great city  
like Cleveland, Theodore Roosevelt  
became responsible for one of the  
strongest figures in our national  
life resigning from congress in which  
he was a powerful factor to attempt  
the wresting of the mayoralty from  
Johnson. The effort failed, as we  
think it should. To have won  
against such odds is as great a tri-  
umph for the mayor as one could  
wish. The affair, instead of elimin-  
ating him from the Cleveland situa-  
tion, has made Tom L. Johnson a  
force in the national politics of his  
party.

### ROOSEVELT STANDS TO HIS GUNS

(New York Press)

President Roosevelt stands to his  
guns, and the American people stand  
with him. No administration can  
fail to continue the work of compell-  
ing the special interests to obey the  
law and submit to the popular will  
without being rejected at the polls.  
There can never be any peace for the  
Rockefellers, the Harrimans, the  
Ryans and the rest of the great free-  
booters until they surrender to the  
American people. And there can  
never again be any toleration of  
parties and officials that do not make  
the biggest criminal pay the penalti-  
es of his misdeeds as must the one  
who robs the mails or counterfeits  
the coin.

### GATHERING OF THE GOVERNORS

(St. Louis Globe-Democrat)

It is seldom that so many govern-  
ors can be assembled in any cause.  
Most of their duties are necessarily  
bounded by state lines, but they are  
not slow to consider national inter-  
ests when questions of this nature  
present themselves. No one of weight  
in public affairs proposes to invade  
the rights of the states. Like the na-  
tion, they are indestructible. But  
the national government wisely, as  
is conceded, controls the water ways,  
and the governors willingly join in  
aiding their development, knowing  
that the advantageous results will be  
fairly distributed all over the coun-  
try. It is a great thing for the gov-  
ernors to get acquainted and to realize  
that the flag with forty-six stars  
truly represents the many in one.

## SPOTLIGHTS

### "Prince of Pilsen," Tonight.

That's a wonderfully pretty bunch  
of girls Mr. Savage has gathered to-  
gether for his new production of  
"The Prince of Pilsen," to play here  
tonight at the La Crosse theatre.  
Pixley's and Luders' dainty musical  
concert is said to have never enjoyed  
a more delightful presentation. Frank  
Pixley, the author of the book and  
lyrics, who saw the company recently  
at Chicago, expressed himself as  
delighted with the new company.  
Dan Mason is really fine as Hans  
Wagner, and in the fountain scene,  
where he sloshes around in the water  
in his effort to sober up after a first  
experience with "bubbel wasser," de-  
lights the audience beyond measure.  
The big singing company possesses a  
vocal strength far beyond that usual-  
ly gathered for the lighter operetta.  
The chorus is full of new and bright  
faces.

### The Irish Pawnbrokers.

"The Irish Pawnbrokers," which  
comes Nov. 10, is Murphy, Murphy  
and Murphy's broad winner again  
this season. In creating their vehi-  
cle for them they commissioned Mr.  
Edgar Selden, who is the author of  
any successful farce comedies to fit  
them with a vehicle in line with their  
former successes, and to say that Mr.  
Selden has achieved their purpose is  
drawing it mildly. He has undoubt-  
edly given them the best vehicle, as  
to comedy situations, they have ever  
had; the piece is intensely funny and  
has a fairly good plot, upon which  
hinges most of the comedy situations.

### "Woodland" Is Coming.

Henry W. Savage's gorgeous rev-  
ival of "Woodland" comes to the La  
Crosse theatre on Tuesday next. This  
comic opera production, which has  
been aptly termed an Audubonesque  
musical frolic, is by Messrs. Pixley  
and Luders, the authors of "The  
Prince of Pilsen" and "Kind Dodo,"  
and will be found to be a distinct  
novelty among modern stage pro-  
ductions. In "Woodland" Mr. Pixley  
has hit upon an entirely new and  
original idea for the construction of  
his book. He has invaded the leafy  
boughs of the forest and written a  
story of life in the bird kingdom  
from which man and womankind  
have been entirely excluded, the re-  
sult being an idyllic story, with many  
opportunities for a lot of clever sat-  
ire and comedy. In dressing the  
characters no attempt has been made  
to reproduce bird figures exactly, on  
the contrary, the costumes are mere-  
ly suggestive of the various birds  
represented. In almost every case  
the birds have a direct connection  
with the position in life occupied by  
the character in the forest kingdom.  
For instance, there is the owl with  
his assumption of wisdom, the comic  
jay bird, always in trouble and usurp-  
ing an importance he does not pos-  
sess; the pugnacious rooster; the  
talkative parrot, the funeral raven,  
the meek dove, the pert and saucy  
Jenny Wren, the liquid throated  
nightingale, the haughty peacock, the  
bold robin and the dashing eagle.  
The idea is clever and the book en-  
tertaining. The lines are bright and  
the lyrics will be found above the  
plane which distinguishes too many  
of the latter day musical productions.  
The piece has been staged with a  
lavish hand and the costumes are  
brilliant and effective. The music  
possesses a dash and brilliancy that  
has never failed to please the popular  
ear and in many instances will com-  
mand the admiration of the most  
musically audiences.

The company that will be seen  
here when "Woodland" is presented  
is a strong and competent one, and  
among the principals will be found  
many of the best known singers and  
comedians who have ever been asso-  
ciated with light opera. Prominent  
among them are Alonzo Prine, Geo.  
W. Leslie, Harry Benham, Dwight  
Allen, H. A. Barrows, Mary Quive,  
Frances Graham, Constance Farmer,  
Lila Smith, Ethyle Cooke, and  
Florence Rother. A well trained  
chorus and a large orchestra lend  
to the finish and attractiveness of  
the production.

Theatre, Tuesday, Nov. 12th.

## JUST LIFE

### The Quiet Hour.

Some may thrive on rush and hustle  
In the hunt for phantom Fame,  
But to me there something else than  
merely chiseling out a name;  
In the quiet evening hour, it steals  
down like some refrain,  
Softly soothing troubled fancies to  
relieve a throbbing brain.

It is one thing in life's mystery that  
we cannot understand,  
Seems some strange, magnetic pow-  
er, from a far-off, beautiful land;  
'Tis when aching eyelids flutter,  
and when troubled hearts beat  
slow.

That this restful peace comes o'er us  
like a requiem sweet and low.  
In that quiet evening hour we care  
naught for golden gain  
That by day we work and strive for  
with our utmost might and main;  
'Tis a glimpse of that strange some-  
thing that we yearn for, day by  
day.

'Tis the dream that makes us better  
as we trudge along the way.  
The fact that a Mexican stayed by  
the coffin when his wife returned to  
life was not a bad compliment.  
It just occurs that Burton would  
Buttin on Johnson again soon.

If Hearst could build up a political  
following like his newspaper client-  
ele, the Independence league would  
be of more importance.  
Raymond Hitchcock appearing in  
court worn and haggard indicates  
not all is comedy in the life of a co-  
median.

It took Teddy four minutes to  
vote; it took Cleveland longer, but  
more was accomplished.  
Congressman Burke Cochrane's  
arrest for alleged illegal voting  
didn't even jar the Tammany ring.

### Bluffed.

Sam Warren, the author of "Ten  
Thousand a Year," has been the sub-  
ject of many anecdotes, none of them  
better than one which I first heard  
related about him by his friend, Mat-  
thew Davenport Hill.

Looking in one day at Warren's  
chambers, Hill noticed that he seem-  
ed a little troubled. "It is," said  
the lawyer novelist, "most unfortu-  
nate. I ought to have dined tonight  
with the lord chancellor, but Mrs.  
Warren is about to present me with  
another olive branch; how can I  
leave her? I hope his lordship won't  
be annoyed at my putting him off."  
"Oh," returned Hill, "don't make  
yourself uneasy; I am one of the  
guests; I know him so well I can  
put it all right for you." With these  
words the visitor prepared to leave  
the room.

At first profusely grateful, War-  
ren presently seemed a little per-  
plexed and said: "By the by, after  
all; I won't trouble you to say any-  
thing about me to the chancellor. Be-  
tween ourselves, I have not been in-  
vited."

"Well," rejoined Hill, "make  
yourself comfortable on that point;  
for that matter, neither have I."—

## THE GIANT'S STRENGTH

BY BASIL KING

Copyrighted by Harper & Bros.)

Only a skilful psychologist could  
have followed the evolution of Paul  
Trafford's thought during the next  
forty-eight hours. Only a sympathe-  
tic insight could have disentangled  
the strands of love and self-love, of  
egoism and devotion, of passionate  
affection for his child and of im-  
pulse to make one more appeal to  
the great, easily hoodwinked public  
to endorse him as a high-minded,  
honorable man.

"Life is only compromise, after  
all," was one text on which he mus-  
ed. "She'd go wild with joy; she'd  
love me more than ever," was an-  
other. "Laura was right; they  
would see me as I am—simple, gen-  
erous, patriotic, caring nothing for  
honors or a big name, but only for  
sterling worth. They'd come to un-  
derstand me at last." That was a  
fruitful theme of meditation. "Brave  
little brick! She doesn't care what  
happens to herself so long as I'm  
pleased, and saved from being  
wounded again. God! I'd let my-  
self be stabbed all over my body  
rather than that she should shed an-  
other tear." That was a subject on  
which he could dwell only with eyes  
blinking. "After all, I may be wrong  
to distrust the man. He may be less  
of a Winship than the rest of the lot.  
The old lust for vengeance may have  
died down, by this time, and the  
reign of common-sense begun. Other  
people seem to speak well of him.  
Wilshire and Lady Alice ought to  
know. Who can tell? I shouldn't  
be the first father who has had to  
make the best of his daughter's  
choice, and I might even come to  
like him. I'm not a monster, in  
spite of all they say of me." From  
these reflections he took what com-  
fort he could.

It was the third day before he felt  
convinced that, of all the chances  
against him, he was accepting the  
least dangerous. It was the fourth  
before he felt sure enough to speak.  
He waited till evening, till the mo-  
ment when Paula came to kiss him  
and say good-night. He drew her  
to him, and laughed with an air that  
was almost boyish in its embarrass-  
ment.

"I've given in," he stammered.  
"My little girl is to do as she likes."  
She slipped from his embrace and  
fell back a pace or two.

"I—I don't understand, papa."

"Don't you? Then I'll make it  
clear. I'm a weak and beaten and  
foolish old man. You'll see it," he  
went on, unconsciously quoting  
Laura—"you'll see it when I tell you  
that just as you're my daughter, so  
Roger Winship shall be my son."

The little sob with which she  
threw herself into his arms again  
was one of natural relief in the  
thought that the long strain was  
over.

### CHAPTER XVIII.

Winship had finished his coffee, in  
the long red studio, before Marah  
brought hers and sat down beside  
him. Though money had been com-  
ing in as it had never come before,  
they had made no change in the sim-  
ple habits of the days of poverty.  
Going to and fro in the room, Mar-  
ah observed that her brother had  
received a letter which he read and  
reread with unusual absorption.

"Is it another commission?" she  
asked, as she took her place.

"No," he answered, absently, still  
pondering the page before him.

When some minutes had gone by,  
she spoke again.

"Read," he said, briefly, push-  
ing the paper towards her. She took  
it and read:

"Dear Mr. Winship—A great re-  
virement has recently come into  
both our families. Perhaps nothing  
so much as sorrow teaches us the  
true value of the things of this life.  
Since God has taken my dear wife  
from me, I, at least, have come to  
see many things from a different  
point of view. I am sure you will  
understand what I mean when I say  
that it would give great pleasure  
both to my family and myself to  
meet Miss Winship and you, and to  
talk over matters of importance,  
which must be discussed between us.  
May I ask, then, if tomorrow after-  
noon at three would suit your conve-  
nience to come to my house in the  
Avenue du Bois de Boulogne?—  
where, as I have already said, we  
shall all be glad to see you. Believe  
me, dear sir,

"Yours very truly,  
"PAUL TRAFFORD.

"P. S.—I beg to add that we lay  
particular stress on the presence of  
Miss Winship, as some of our topics  
of conversation will of as much inter-  
est to her as to the rest of us."

The brother and sister looked at  
each other blankly.

"What does this mean?" Marah  
demanded at last.

"It means first of all that I have  
asked Paula Trafford to marry me."

"And then?"

"That she's consented."

"And then?"

"That they've all consented."

"And then?" he cried, springing  
up, with a harsh laugh—"then it  
means that the day has come to  
which we've looked forward so long  
—when we can say to each other, as  
Deborah said to Barak, 'Up for the  
Lord, hath delivered him into your  
hands.'"

"I don't understand you. How has  
He delivered him?"

"Come and see."

"Very well. I'll go."

No more was said; the subject was  
difficult to speak of; but at three  
o'clock they presented themselves at  
the door of the great house.

Trafford himself met them at the  
foot of the grand stairway. Now that  
this step was definitely decided on,  
he felt the satisfaction by which he

BLOUSE OR SHIRT WAIST 5811.  
The plain tailored shirt waist  
makes an essential part of the au-  
tumn and winter wardrobe and is  
shown in some really fascinating ma-  
terials and styles. Plaid and striped  
taffetas are favorites, wash flanne-  
ls are both beautiful and durable, such  
fabrics as cashmere and henrietta  
cloth are well liked and in addition  
the heavier linens and Madras cloth  
are much to be desired. Here is a  
model that suits one and all which  
is simple and smart in the extreme.  
There is a wide box plait at the front  
edge and there are wide tucks at each  
side of the front. As illustrated it is  
made of striped taffeta stitched with  
beading silk and is worn with a sepa-  
rate collar of white linen and is held  
by handsome smoked pearl buttons.  
The waist is made with fronts and  
backs and with sleeves in regulation  
shirt style. A neck-band finishes the  
neck and the sleeves are completed  
by stitched overlaps and straight  
cuffs.

The quality of material required  
for the medium size is 4 1/4 yards 21,  
3 1/2 yards 27, or 2 3/4 yards 44 inches  
wide.

The pattern 5811 is cut in sizes  
for a 32, 34, 36, 38, 40 and 42 inch  
bust measure and will be mailed to  
any address by the Fashion Depart-  
ment of this paper on receipt of ten  
cents. (If in haste an additional  
two cent stamp for letter postage  
which insures more prompt delivery.)

### QUIPS AND CRANKS AND WANTON WILES

Who Does It?

'Tis not the maid well groomed and  
fair,  
The maid with merry eye,  
Who fills the world with woeful care  
For men like you and I.

'Tis not the gayest of the gay  
At party, ball or show,  
Who makes life seem a fun'ral day  
For all mankind—O, no!

All thanks to her with laughing eye  
And ruby tinted lips,  
Who, at our elbow lingers nigh  
And of love's nectar sips.

'Tis not the jolly girl, I claim,  
The one with saucy wink,  
It's just the over-proper dame  
That drives the men to drink.

### The Panic.

No more his chug-chug car at night  
Spins down the Great White Way,  
And sad the chorus lady's plight  
Whose bills he used to pay.  
No more the funny, fuzzy wine  
Goes on the ice to soak,  
And there is many another sign  
That the broker's going broke.

## NEW CAR LEAVES TRACKS ON THIRD

One of the new cars of the La  
Crosse City Railway company went  
off the track at the switch just  
north of the Power house last even-  
ing. Although the front trucks  
were lifted clear of the track no  
damage was done to the car. Aside  
from a severe shaking up no one was  
hurt.

The patrons of the lines were  
forced to change cars at this place  
last evening while the men were  
working to get the disabled car back  
onto the tracks.

yesterday morning on account of  
the great increase in business and  
larger number of trains which have  
been sent out.

These cars will be in charge of  
the conductors who were recently  
promoted from brakemen to conduc-  
tors.

## SMALL WRECK DELAYS TRAINS

A small freight wreck last night  
on the river division of the Milwau-  
kee at Etter, caused some little de-  
lay in the service and trains No. 1,  
15, and 57 were forced to go over  
the Burlington.

The damage was caused by a cou-  
ple of box cars leaving the tracks  
and tied up the traffic for some time.  
The damage was small and no one  
was injured.

The funeral of Mrs. Catherine  
Ritter, who died Tuesday as the re-  
sult of the bursting of an artery,  
was held at 9 o'clock this morning  
from the St. James church.

The funeral was largely attended  
by friends and relatives. The ser-  
vices were conducted by the Rev.  
Father Kalua.

Interment was made at the Cath-  
olic cemetery.

## New Fruit Cure for Constipation and Weak Nerves

Remarkable Power in a Simple Trop-  
ical Fruit Remedy Which Any  
Constipated, Weak Man or  
Woman Can Mix at  
Home.

A remedy which not only perma-  
nently cures chronic constipation,  
but which actually and quickly  
builds up weak, shattered nerves and  
restores lost vigor, has been discov-  
ered in a simple prescription of tropical  
fruits.

For the benefit of our readers we  
give below the prescription of this  
new remedy which anyone can mix at  
home in a few moments' time. The  
results of this simple home remedy  
have been truly astonishing when  
regularly and persistently taken.

Weakness of the nerves is the  
cause of more disease and unhappi-  
ness than any other factor in life.  
Loss of nerve force, and loss of pow-  
er in both men and women, nervous  
debility in some of its most aggra-  
vated forms, chronic constipation,  
weak back, kidney diseases, "brain-  
break," nervous prostration and other  
similar diseases disappear as  
rapidly as new nerve tissue is built  
up by this remedy.

Here is the prescription:  
Mix one ounce of Obifrut Compound  
Extract with seven ounces of  
port wine or unfermented grape  
juice. Of this mixture, take a des-  
sertspoonful three or four times a  
day before each meal and at bed-  
time.

There is absolutely nothing harm-  
ful in this remedy. It contains no  
narcotics, no alcohol, and no mineral  
or animal matter whatever.

Almost any disease will succumb  
before strong nerve power, and this  
is the remedy which will restore you  
to the joy of the full possession of  
your health and all your precious  
faculties.

The ingredients mentioned above  
can be obtained at almost any drug-  
store. Use it persistently and keep  
a supply of it constantly on hand for  
family use.

Several Residents of the North Side  
Have Agreed to Donate Toward  
the Improvement

Teachers and pupils of the Tenth  
ward school as well as the residents  
of the North side, have a plan to  
adopt some method of raising funds  
to defray the expenses of improving  
the grounds surrounding the school.

A number of the residents of the  
North side have signified their will-  
ingness to contribute sums for such  
improvements and this together with  
what can be raised in other ways  
will be sufficient.

Although the plans have not ma-  
tured it is thought that an enter-  
tainment will be given by the pupils  
of the school under the supervision  
of the teachers to help raise the sum.  
This plan has met with the enthu-  
siastic approval of teachers, pupils  
and parents and it will in all probability  
be held, although the date has not  
been set.

The Tenth ward school, since the  
building of the addition and other  
improvements, is one of the best and  
most finely equipped in the city,  
with the exception of the High  
school. It is the plan to try and sod  
the grounds surrounding the school  
and otherwise beautify the surround-  
ings.

## MONEY RAISED TO MOVE WHEAT CROP

RAILROADS WILL SOON BE  
RUSHING IT THROUGH

## HILL AND BANKERS GET BUSY

Grain and Flour of Northwest Will  
be Placed on Eastern and Euro-  
pean Markets Soon.

Plans for the movement of the  
crops of the northwest to the east-  
ern markets, the accomplishment of  
which will greatly relieve the mon-  
etary situation throughout the coun-  
try, has been arranged by the bank-  
ers of the Twin Cities, Duluth and  
New York, with the assistance of  
James J. Hill. The details of the  
plan have not been given out, but  
the assurance is given that a large  
fund has been raised so that the  
grain may be moved forward before  
navigation on the lakes closes and  
the announcement is received with  
much interest by railroad men, flour  
men and grain dealers of La Crosse.

The movement of the crops from  
the harvest fields of the northwest  
first to the milling and shipping  
points and from there to the east for  
consumption as well as for export  
requires a vast amount of ready cap-  
ital for which the financiers of the  
country must make provisions every  
year. The movement this year has  
been handicapped by the money  
stringency in New York and the so-  
lution of the problem of moving the  
crops, under the existing conditions,  
means much to the northwest.

Will Get Crop to Market.  
There is an active demand for  
grain and flour in Europe and its  
movement to the eastern ports be-  
fore the closing of navigation on the  
lakes is a matter of great impor-  
tance. The delay in this forward  
movement and the question of how  
to remove the cause of the delay has  
been an important problem. So long  
as the grain and flour reach the east  
in time they will be ready for export  
and will turn the balance of trade  
strongly toward this country and re-  
sults in a heavy importation of gold  
to relieve the present stringency.

The final arrangements for the  
plan were made at a meeting yester-  
day between Mr. Hill and the bank-  
ers.

## DELAY ACTION ON CROSSING

Superintendent of Milwaukee Writes  
That Matter Will be Dropped  
Until More Definite.

It has been decided that no meet-  
ing will be held between the com-  
mittee that was appointed by the  
North Side Progressive league and the  
Milwaukee railroad officials, as  
was previously planned.

With the recent change in affairs  
at the Mill street crossing, by the  
appointing of a night man, some of  
the danger at the crossing has been  
eliminated and the matter will be  
dropped for the present.

In a letter received here from the  
superintendent of the Milwaukee di-  
vision, it is stated, nothing further  
will be done in regards to the cross-  
ing until some definite plans are  
made by the road as to what changes  
will be made about the yards here.  
Although it is not stated positively  
in the letter that the yards will be  
changed from the general tone that  
is what is indicated.

## RAILROAD MEN AT SEA ON SEA FARES

Passenger officials throughout the  
country are waiting with great in-  
terest for the ruling of the inter-  
state commerce commission with re-  
ference to the payment of commis-  
sions to steamship agents and oth-  
ers as inducements to route business  
"the right way." Effort have been  
made for some time to have the  
commission make a definite ruling  
on the question, but except for a  
statement soon after the Hepburn  
act became effective that the com-  
missioners did not believe that un-  
der the provisions of that act it had  
jurisdiction over transatlantic busi-  
ness, nothing definite has come from  
Washington. This is an important  
question, for it is on account of a  
dispute over this point that the lines  
in the east and the west are likely  
to engage in a lively rate war.

The commission a year ago had  
agents in the Twin Cities looking in-  
to the payment of commissions to  
steamship agents, and it was thought  
that something would develop out of  
the investigation. After waiting a  
long time to hear from Washington  
a committee of three passenger of-  
ficials of eastern lines recently called  
on the commission and asked for a  
decision.

Counsel at Variance.

Counsel of different roads hold  
different opinions about the legality  
of paying commissions. The legal  
department of the Erie said that the  
practice is illegal, while counsel of  
competing lines ruled contrary. In  
view of the fact that the Erie pas-  
senger officials were restrained from  
paying commissions they determi-  
ned to lower the second class rate  
from Chicago to New York, with the  
intention of forcing a settlement of  
the commission question. So far the  
other lines have failed to yield to  
the Erie's point, by refusing to pay

commissions, only one line taking  
any action whatever. That was the  
Wabash, which promptly met the  
\$10 rate.

It is generally held that there is  
nothing in the Hepburn law which  
can be interpreted to prevent the  
payment of commissions, so long as  
the money does not go back to the  
pockets of the people who travel.  
But it is argued that the practice al-  
lows a big loophole for acts of dis-  
crimination, for there is no means  
of knowing always that the com-  
mission may not be divided between  
the agent and the passenger.

## Divide With Purchasers.

A committee of the American as-  
sociation of general passenger ticket  
agents recently conferred with the  
interstate commerce commission  
with a view of a possible complaint  
to test the legality of the practice of  
employing ticket agents on commis-  
sion, so that the commission has the  
whole question of the payment of  
commissions before it. It is said  
that in some parts of the country  
some railroads employ doctors, den-  
tists, hotel clerks and liquor men to  
sell tickets, and that in these cases  
the purchasers and the agent often  
divide the commission allowed by  
the roads on such sales, which, of  
course, constitutes a discrimination  
in passenger rates. If this is true,  
it is asserted practically the same  
methods employed in the days of  
scalpers have been restored.

## NORTH SIDE BRIEFS

Mr. M. T. Paulson, one of the  
leading temperance workers, will oc-  
cupy the pulpit of the Trinity Nor-  
wegian Lutheran church on Avon  
street, Sunday, Nov. 17. In the morn-  
ing he will preach in the Norwegian  
language at 10:30, and in the even-  
ing he will speak at 8 o'clock, using  
the English tongue.

he is delivering lectures. He will  
return to his home on the North  
side Friday.

Mrs. Von Ende, 912 Avon street,  
entertained the ladies of the Coffee  
club at her home Tuesday afternoon.  
There were about fifteen present and  
the afternoon was spent in a most  
enjoyable manner.

Mrs. Carrie Page of George street  
is the guest of friends and relatives  
in the Twin cities. She will return  
to her home some time the latter  
part of this week.

John and Peter Antony of St. Jo-  
seph's Ridge, who were in La Crosse  
today to attend the funeral of Mrs.  
Ritter, have returned home.

Jacob Hauser, formerly a fireman  
on the "Q," has been promoted to  
engineer.

Charles Barret has returned to his  
home in New Lisbon after a short  
visit with his brother, William, in  
this city.

Bruce Alleman has returned from  
the west, where he has been on an  
extended visit.

Miss Mae Downs, who has been  
in Winona visiting, has returned to  
her home on the North side.

The Birthday club met today at  
the home of Mrs. G. M. Linn, 1501  
Kane street.

Mr. George Ward of George street  
will leave tomorrow for Babcock,  
where he will be engaged in the real  
estate business.

Miss William and Miss Jessie  
Burns, who have been guests at the  
home of Mr. Nick Birnbaum for the  
past week, will leave tonight for  
their home in Pine Creek, Minn.

Mr. Leonard Ritter of Sparta was  
in La Crosse today to attend the  
funeral of his mother, Mrs. John  
Ritter.

### REFUSED INCREASE AFTER 22 YEARS, QUIT

Frank Huber, arc-trimmer for the La Crosse Gas and Electric company, for the past twenty-two years, during which time he performed his duties with consistent care, recently resigned upon being refused an increase in wages. The vacancy has been filled at the same wages which Mr. Huber had been receiving.

During the many years of faithful service for the company Mr. Huber has been called out at all times of the day frequently up to midnight after which time Mr. Huber refused to work on account of the fact that he carried a heavy insurance in companies which did not permit him to work after that hour and therefore if he should meet with an accident after that time he would receive no insurance.

Miss Josie Huber of the dress goods department at the Park store said today: "On the 6th of October Mr. Huber notified the company, one month ahead of time, that if he was not granted an increase in wages he would tender his resignation. A few days before the month's notice had terminated Mr. Huber gleaned from others connected with the office that his request was not to be granted, and therefore told the company they could have the job."

Mr. Huber has had years of experience in the arc-lamp business and is an expert in his line.

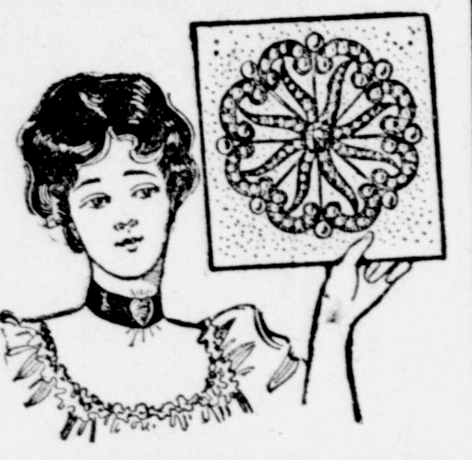

He has left the city for a more lucrative position. His former position is now held by Frank Hanfl.

### CELEBRATE CHURCH'S 20TH ANNIVERSARY

The German Lutheran church of Barre Mills has prepared a special program for next Sunday in honor of the 20th anniversary of the present building. Pastors and choirs from neighboring congregations are expected to participate and the event is an assured success. Dinner will be served in the church parlors by the women.

Strange what a little things will upset a man and keep him so all day, when he ought to be alert and cheerful. A heavy, hot biscuit for breakfast has been known to create a scrap between life-long friends.

If you want a peaceful day eat a dish of Grape-Nuts (chew it slowly) and cream. The deliberate chewing of the crisp, nutty granules, which have a delicious flavour with cream, will not only put you right but give you strength of mind and body for the morning's work at the office. Try it. "There's a reason." Read the little book, "The Road to Wellville" in pkgs.

### FAMILY OF ELEVEN WENT UNRECORDED

With eleven children in the family ranging from the age of three months to 22 years of age, no birth records of the family of Mr. and Mrs. Charles L. Kumm of the town of Campbell were ever filed with the register of dds until Tuesday. Had any legal question arisen as to birth-right or heirship, the identity of none of the eleven children could have been proven officially.

Supervisor William Wolf, who lives nearby discovered the situation and has secured the necessary blanks and brought in the returns for the entire family. The children and their ages are as follows: William, 3 months; Arthur, 20 years; Mary, 22 years; Peter, 16 years; Mattie, 12 years; Joseph, 14 years; Casper, 10 years; Mike, 7 years; Frank, 5 years; Conrad, 18 years.

### BIG IMPROVEMENT IN RIFLE PRACTICE

The reports on small arms practice for the season, which closed on Oct. 31, show most promising results, for they surpass anything ever accomplished before in the Wisconsin national guard. While there have been no better scores made by the best riflemen, the masses have shown a vast improvement, there being far more sharpshooters and marksmen of "course C" than in past years.

This improvement is due largely to the change in the firing regulations made by Col. Robert McCoy of Sparta, the new inspector of small arms practice. Col. McCoy required that a score of 120 be made at 200, 300 and 500 yards before any rifleman could go back to 600 yards. There a score of 40 was necessary out of a possible 50 before timed fire could be taken up. The old regulations required but 98 at the first three distances. More ammunition was allowed than in previous years, and the expectations of Col. McCoy were lived up to—the men spent more time in their home ranges preparing for the difficult requirements which they knew would confront them at camp.

The Wisconsin team in the national match also showed a vast improvement over last year, owing to Col. McCoy's method of coaching them. Their stride to the front, however, was not as great as that made by the Minnesota team, which passed the Badgers this year in the match at Camp Perry.

## SOCIETY

### MRS. VAN AUKEN ENTERTAINS AN AFTERNOON COMPANY

There was a pleasant afternoon gathering yesterday afternoon at the home of Mrs. C. S. Van Auker in honor of her sister-in-law, Mrs. Ambrose Van Dusen of Geneva, N. Y. The guests, about thirty in number, were invited to come at 3:30 and to bring their work. Promptly at the hour, with few exceptions, all arrived, carrying their fancy bags of needle work. It was a very informal and an exceedingly social affair which was enjoyed by all. During the afternoon Miss Mariam Harrison and Miss Helen Lavake favored the company with some delightful instrumental music and Miss Irma Candrian sang several numbers with pleasing effect. A delicious supper was served from a handsomely appointed table in the dining room and several small tables in the parlors. Those who assisted in the serving were Mrs. George Thurler, Miss Alice Wheeler, the Misses Margaret Farnam and Olga and Jeannette Candrian. Mrs. Howard received with Mrs. Van Auker and Mrs. Van Dusen. Tuesday afternoon Mrs. C. S. Cone entertained two tables at bridge.

### SURPRISE PARTY.

A very pleasant surprise party was given at the home of Miss Clara Frezin. The evening was spent in music and games. At midnight dainty refreshments were served after which a few more games were indulged in, till the breaking up hour. Those present were the Misses Clara Frezin, Clara Selzer, Mary Kranz, Martha Perivky, Anna Koller, Lina Selbert, Wagner and Mary Kosinsky, Jessie Ryan, Messrs. E. Rilly, John Poehling, Ross Maynard, Oscar Larson, Sever Erickson, Joe Selbert, Charles Dell and Arthur Schelton.

### CHURCH SOCIETY

The Woman's Union of the Congregational church will be entertained this afternoon at the home of Mr. W. F. Wolfe, Madison street. The hostess will be Mesdames Wolfe, Odin J. Oyen and Julius Westby. All ladies and young ladies of the society are invited.

### COMING AND GOING

Mrs. Elsie Gile Scott and maid, and Mr. Argyle Scott left last evening for Chicago, where Mrs. Scott will remain a few days, and then go to New York, where she will join a party on a trip around the world. She will sail the 16th and be absent till May.

Mr. Argyle Scott will go to Salt Lake city and will spend the winter in that vicinity and in Idaho, where he has mining interests.

### TO RAISE WATER MAIN WHICH SAGS

At the meeting of the water committee Tuesday evening the matter of the water main in La Crosse river which sags considerably, was brought up. The main will no doubt have to be raised and repaired permanently.

### New Ice House.

The fire committee permitted The People's Ice Company, from whom they had received a petition, to erect an ice house on the east bank of the Mississippi river between Perry and Division streets, provided it was covered with sheet iron and erected according to the ordinance.

### RELATIVES WILL CARE FOR TOTS

Ruth and Harold Gaskill, small children of Clyde O. Gaskill, who is now in Iowa, who have been committed officially to the Sparta Home for Dependent Children, will be cared for by N. Dress, 1004 South Fourth street, who are relatives, and will not be taken to the school. The law permits this action when desired by relatives, and as the Drees family has been caring for them they will be permitted to remain there.

### AN ENTHUSIASTIC CUSTOMER

Told her grocer that if he refused to handle "OUR-PIE" Preparation she would trade elsewhere. She knew she could make Lemon, Chocolate and Custard pies better than the expert cook if she used "OUR-PIE" as all the ingredients, carefully prepared, are in the package ready for immediate use. Each package, enough for two large pies, 10 cents. Order a dozen today from your grocer. Excellent also as a pudding sauce, cake filling, etc.

### SUIT OVER HOGS IN JUSTICE COURT

Two hogs and two cows, have involved Herman Peters and August Brimmer, La Crosse county families, into a legal entanglement, which must be settled in justice court.

It all hinges on the possession of the animals. Peters claims that the cows and hogs were taken by Brimmer between March 1 and yesterday, when the action for \$1000 damages was started in Justice Daniels' court. Between those dates, he alleges Brimmer converted the cattle into his own use. Peters declares Brimmer will not give up the property in dispute, and accordingly brought suit.

This morning the case was called before Justice Daniels and continued until Thursday, Nov. 14.

### Sues For Wages.

Stephen Morehouse, another La Crosse county farmer boy, has started an action against William Wolf, a prominent farmer, and member of the county board, before Justice Daniels, for \$63, which he claims is due him for wages between March 1 and Sept. 19.

In the complaint Morehouse declares he hired out to Wolf for \$15 per month on or about March 7, and continued in this capacity until about April 1, when his wages were raised to \$30 per month. He continued in the employ of Wolf until Sept. 19, receiving no money. Now he brings suit for the whole of his wages, \$63. This morning the case was called by Justice Daniels and continued until Nov. 17.

# EUGENE D. FUNK

SHIRLEY, ILLINOIS  
"CORN KING"

Eugene D. Funk of Shirley, Ill., has been elected president of the National Corn association, which annually holds an exposition in Chicago that is the agricultural feature of the year in America. Mr. Funk is the largest seed corn grower in the world. He gives the following advice to farmers as a nucleus for farming success:

"The first principles of good farming are neither mysterious nor difficult.

Honesty, industry, stick-to-itiveness, attention to detail and constant study of one's business will reap a harvest to the tiller of the soil.

Modern farming bears a kindred relation to other successful enterprises at this age inasmuch as the inventive genius has introduced to us modern implements and farm machinery which enable us to accomplish twice as much as in the olden times. Together with this comes that much more study and brain work, a college education, if possible, or willingness to observe and learn from others. Recent applications to the above principle in the study of corn breeding has enabled us to increase the annual yield ten to the acre.

The scrub, whether animal or plant, can no longer be expected to increase the farmer's bank account. There is always a market for a good horse, cow, hog or sheep. They consume no more in proportion than a poor one. To be sure they require some attention and study, but that attention is part of the net income which eventually the farmer reaps.

### Making Good.

There is no way of making lasting friends like "Making Good;" and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have not made drunkards.

A good, honest, square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery. It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest, hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, foul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It's an honest, square-deal medicine with all its ingredients printed on bottle-wrapper—no secret, no hocus-pocus humbug, therefore don't accept a substitute that the dealer may possibly make a little bigger profit. Insist on your right to have what you call for.

Don't buy Dr. Pierce's Favorite Prescription expecting it to prove a "cure-all." It is only advised for woman's special ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nerve it is unequalled. It won't satisfy those who want "booze," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the original Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy—one to three a dose. Much imitated but never equalled.

## PRESERVATION OF FORESTS URGED

SECRETARY WILL ADDRESSES AN AUDIENCE HERE

### SAYS A CRISIS IS AT HAND

Says Wood Famine Will Follow Failure to Support Appalachian Bill Before Congress

National Secretary Thomas E. Will of the American Forestry association, of Washington, D. C., who was secured to speak at the city hall in the small council chamber last evening through the efforts of State Forestry Secretary Edward Merriam Griffith of Madison, was met at the Milwaukee train when he arrived in the city at 5:15 last evening and escorted by members of the La Crosse Board of Trade to the Hotel Stoddard, speaking last evening to an interested audience on the preservation of the forests of the United States, which were rapidly being denuded and disappearing. The lecture was made entertaining by the use of stereoscopic views which were taken by the secretary in his various travels, and showed the "canyons" of the American forests, the manner in which they were being destroyed, and with suggestions for preserving them.

Congress should pass the bill, in making these speeches about the country he urged that the Appalachian bill be given strong support at the next session of congress so that the American forests may be preserved and revived. He predicts a wood famine in case the bill is not given attention.

He left on the midnight train for New Lisbon and continued on east from there today.

He said in part:

**Wood Famine.**  
"A famine in wood is second only in seriousness to a famine in food; yet the coming wood famine is already casting its shadows upon us, as shown by the rapidly mounting prices of wood in whatever form.

**Four Areas.**  
"The forests of the United States lay originally in four great areas; those of New England, the Great Lakes, the northwest and the south. The first two are almost gone, the other two are vanishing.

The forests of the south are highly valuable, particularly in that they contain our last remaining important stock of hard woods. So widely are woods of this character used that their destruction would be a calamity, not simply to the south, but to the entire United States.

**A Simple Problem.**  
"The problem is simple of solution. It consists not in forbidding the use of forests but simply in so regulating that use that the forests themselves will be preserved, thus preserving the streams and the interest dependent thereupon. Such a policy necessitates governmental action. Publicly owned and administered forests in European countries, notable in Germany, have proved unqualifiedly successful. Public administration has saved the forests as such, while permitting a constantly increasing annual cut.

**EXECUTOR'S SALE**

## THE PINE CAMPS FOR CONSUMPTIVES

The Pine Oil Also Furnishes a Most Wonderful Cure for Coughs and Colds.

The stately pine tree growing in the solitude of the Eastern mountains holds the proud distinction of yielding to the human race meritorious medicines for a greater variety of ills than any other plant of the vegetable world.

In these pine forests are located little colonies of campers of consumptives, who live almost entirely night and day in the open air breathing pine atmosphere.

A renowned Philadelphia doctor famous for his pine forest cures has recently given to his fellow physicians a new and probably the most valuable of pine products. It is known to the profession as Concentrated oil of pine. In speaking of this oil a well known local physician declared it is without an equal for the speedy relief of acute coughs and colds and all manner of thoracic and lung trouble. The original formula used and now generally prescribed is as follows:

A one-half ounce of Concentrated oil of pine; two ounces of glycerine; half pint of good pure whiskey; mix thoroughly and use in doses of a teaspoonful to a tablespoonful every four hours, shaking the bottle each time.

On inquiring at one of the leading drug stores it was found that the Concentrated oil of pine is put up only in one way and that is in half-ounce bottles each enclosed in a round birchwood case which protects it from heat and light. The oils sold in bulk and patent medicine imitations sold as oil of pine are useless, on account of their impurities they produce nausea and kidney trouble.

themselves will be preserved, thus preserving the streams and the interest dependent thereupon. Such a policy necessitates governmental action. Publicly owned and administered forests in European countries, notable in Germany, have proved unqualifiedly successful. Public administration has saved the forests as such, while permitting a constantly increasing annual cut.

**The regularity of the water flow of southern streams is dependent upon forests upon the slopes of the mountains in which these streams take their rise. In New England, regularity of stream flow is maintained in cases largely by lakes and reservoirs fed by melting snow. The south enjoys no such advantage. If her mountain forests are cut, rains falling upon slopes will be precipitated suddenly and violently into the streams, filling them with sediment and wreckage and resulting in disastrous floods. In the single year of 1901-02 floods in a single section of the south caused damage estimated by the United States government at \$18,000,000. New England rivers and water powers are becoming seriously impaired.**

**National Forests in West.**  
"The United States now maintains national forests in the west greater in area than the whole of Germany or France and equal in area to all the states of the union north of North Carolina and east of Ohio. These are being administered on forestry principles. Wood fit to be cut is being cut under supervision, while wood that should be preserved is safeguarded. Forest fires have been reduced to a negligible quantity. Nurseries are raising trees which are being planted upon denuded areas and western plains.

"All the government forests now lie in the west. Such forests are imperatively needed in the White and southern Appalachian mountains. A bill appropriating \$3,000,000—\$1,000,000 to be expended in New Hampshire and \$2,000,000 in the south in buying mountain forest lands, unanimously passed the United States senate and was unanimously recommended for passage by the house committee on agriculture and strongly urged by the president; but it failed to reach a vote in the house. Such a bill should be pressed upon congress at the beginning of next session and enacted before it is too late to save the southern woods and streams. The organization most actively promoting the Appalachian campaign is the American Forestry association, with offices in Washington, D. C., its chief reliance is upon the dues paid by its members, some 6,500 in number. That it may rightly do its work its membership and resources should be greatly increased. It appeals to all public-minded citizens to aid in its efforts."

**Adopt Resolutions.**  
The following resolutions were adopted by the audience:  
"Whereas, the destruction of American forests is proceeding at a rate which points to a rapidly approaching timber famine, and  
"Whereas, in the southern Appalachian mountains is found one of the chief remaining forest areas of the United States, including our main stock of hard woods;  
"Whereas in both New England and the south vast manufacturing interests are dependent upon water powers, which, in turn, are dependent upon the conservation of the forests upon the slopes in which rivers take their rise, and  
"Whereas, experience, home and foreign, abundantly proves that national forests conserve both wood and stream flow, and are a source not of loss but of gain to the nation, therefore,  
"Resolved, that we urge the enactment of the Appalachian bill at the coming session of congress."

**FIFTEEN HURT IN CAR WRECK.**  
INDIANAPOLIS, Nov. 7.—Fifteen passengers were seriously injured, two fatally, when a Union traction car jumped the track near here today. The brake failed to work.

## STRIKE TIES UP LOCAL CONTRACTORS

(Continued from Page One.)

part of the plant. In work of that kind the union rules call for a foreman over the men, or an inspector for such work. After much difficulty they allowed a foreman over the foundation work. William Miller was the foreman. After the work on the foundation had been completed the foreman was laid off by the construction company and the work carried on by non-union men on the footings. The other union men at work on the building refused to work and the construction was suspended for about three days last week. James Hilton, local deputy of the Bricklayers' and Masons' union, waited upon Carl Michel of the brewery and also upon the contractors. The foreman was placed on the foundation, as above, but the contractors "stood pat" on the footings and refused to have a foreman over the work, which was finally allowed to continue with non-union men, although the specifications for the building called expressly for union labor only.

"The Bricklayers' union called a meeting in the John Malin hall and after some deliberation placed Groff & Derr on the 'unfair' list. The decision of the local union was at once transmitted to all the cities where the National has a union with the result that men were called off of the large jobs which the contractors have outside the city."

James E. Wallace, in charge of the building, said today: "The contractors would have been better off had they complied with the request of the union, as the matter would have cost them but little, whereas it will now cost them considerable trouble and expense in securing men. They will have a hard time getting men, as nearly all bricklayers are now in the unions."

"The contractors are now through at the Michel building, but they will be greatly hindered in completing the contract jobs they have outside the city."

"The Bricklayers' union has broken up big contractors, and it is east to estimate who will win out in this controversy."

President Llewellyn Groff said yesterday: "I have about two millions of brick to lay. They wanted a brick or stonemason foreman over the concrete footings of which they have no knowledge whatever. I let them have one over the footings but when they wanted one over the wall, I objected and the work was continued without one. The men pulled off without any notification whatever, and are off at Clinton and Burlington."

"I have broken up the carpenters and laborers' strikes and I will break up the brickmen too. I am sorry I have started but since they have begun I will fight it out to the bitter end and will never give in."

"I now have men seeking bricklayers in Chicago, Minneapolis and at the larger cities and will soon fill up my ranks so that the work will proceed as before."

"The rule in regard to a foreman is not in their book. I have looked up their rules and the section upon which they are supposed to have 'balked' is not there at all."

President Groff left last evening for Minneapolis where he expects to seek recruits and bring back a large number of bricklayers.

He is optimistic and is sure that he will win out, believing that the men have struck at the wrong time of the year.

## SKIN ON FIRE—AGONY UNBEARABLE.

Terrible Itching Buring Skin Disease Now Quickly Cured.

A purely vegetable external remedy that has been proved beyond all possible doubt to cure the worst cases of Eczema and all skin diseases can now be procured by all skin sufferers. This remarkable remedy is Dr. D. D. Prescription, the discovery of Dr. Decatur D. Dennis, the well-known skin specialist, is being manufactured by the D. D. Prescription Co., 112 Michigan St., Chicago, Ill. The demand for this remedy has become tremendous within a short time because people are just learning that the hundreds of cures it has made seem to be permanent.

Eczema and all diseases of the skin must be treated locally, according to the views now held by foremost skin specialists and physicians, that is, you must doctor the itch where the itch is. It is useless to attempt to cure skin disease by taking drugs and medicines into the stomach. The disease is not in the blood. It is in the skin and only skin deep. You must get at the seat of the disease and kill the germ by making direct applications to the skin.

Mrs. L. B. Powell, Box 414, Caruthersville, Mo., writes: "Words cannot convey my full appreciation of D. D. D. The face of my baby boy was a solid scab, when I accidentally heard of D. D. D. I secured a bottle at once and began to apply it. It was miraculous in its cure. It healed my baby's face completely. If anyone wants further information about this I shall be only too glad to hear from them."

Testimonials of hundreds of cases of remarkable cures by D. D. D. Prescription and an interesting booklet on skin disease and its treatment, exercise, diet, bathing, etc., may be had free by calling on Hoehsler Bros., druggists, where D. D. D. Prescription and D. D. D. Soap will be found on sale.

## ACCOUNTING SUIT IS HEARD TODAY

COAL BUSINESS BETWEEN BIG-LOW AND PALMER

### NEWTON CASE IS FINISHED

Judge Fruit Takes the Action Under Advice and Will Decide It Later On.

This afternoon the suit of D. H. Palmer against F. Bigelow in the dissolution of partnership, was taken up by Judge Fruit. The case was heard before Judge Fruit at the regular fall term of court, but was not completed. Palmer is suing for an accounting of the partnership with Bigelow and dissolution of the same.

The famous Newton divorce action, which resolved itself into a fight for the possession of the children, and later a suit for maintenance of the children by Mrs. Rose Newton, Minneapolis, Minn., against Marion Newton, Watertown, Wis., was completed yesterday afternoon. Judge Fruit took the case under advisement.

### Second Action Started.

While Marion Newton, defendant in an action brought by his divorced wife, Rose Newton, for \$2,633 for the care and maintenance of their children, was testifying in circuit court yesterday, he was served with a summons in a second action for \$103 for the burial expenses of George Newton, who died last summer.

Mrs. Newton and her son, John Newton, were sworn for the plaintiff, and recited their trials. During the testimony it was brought out that John Newton refused to live with his father in Watertown, Wis., because he liked the life in a large city. The father also testified to this, and declared his son, George Newton, now dead, would not live in Watertown, because Minneapolis was larger and furnished more attractions.

Attorney P. H. Hartwell, for the defendant, this afternoon introduced three registered letters, one each to Mrs. Newton, John Newton and Geo. Newton, demanding the return of the boys from Mrs. Newton and for the boys to return to their father. Although the letters were registered, they were returned to Mr. Newton unopened. Mrs. Newton and her sons had refused to accept them.

## GETS A YEAR FOR OBTAINING MONEY

Broken down in health, his constitution wrecked by fast living, John Hoffman, aged 24 years, was sentenced to one year in Waupun by Judge Brindley yesterday afternoon, on a plea of guilty to obtaining \$10 from Sadie Stone, 130 Jay street, by false pretenses. Hoffman committed the offense on Nov. 5.

The old ring game was worked on the woman. Hoffman appeared in need of funds, and offered what he said was a solid gold ring, set with a genuine diamond, valued at several hundred dollars. He was willing to accept a loan of \$10 on the ring and stone. On representation that the ring had been examined by a local jeweler and pronounced gold, and the diamond genuine, the \$10 loan was made.

When the woman had the ring examined she met with a shock. The ring was appraised at twenty-five cents, and it so jarred her that she reported her loss to the police department.

Hoffman was arrested yesterday afternoon and arraigned before Judge Brindley at 5:30. He entered a plea of guilty and was given a year in the state penitentiary.

## H. H. HARRISON IS LAID TO REST

The last tributes to the late H. H. Harrison were paid yesterday afternoon at the family residence, 938 Cass street, at 2 p. m. Rev. C. N. Moller conducted the services. After a brief service at the residence the remains were taken to Christ Episcopal church, corner of Ninth and Main street, of which Mr. Harrison was a prominent member, where the many friends of the deceased had congregated to pay their last respects. From the church the procession proceeded to the Oak Grove cemetery where interment took place.

The following, who have been close business friends of the late Mr. Harrison acted as pall bearers, Geo. H. Gordon, Herbert Greenwood, Wallace R. Montague, J. E. McConnell, James B. Funke and R. H. Weston.

## MARRIED BEFORE JUSTICE HUNT

Miss Rena R. Taylor of Kendall, Wis., was united in marriage at 7 o'clock last evening before Justice of the Peace Clinton W. Hunt at his office on Main street to Mr. James Taylor of La Crosse.

The witnesses were Mrs. Mabell Taylor, a sister of the groom, of La Crosse, and Mrs. Eva Haskins of Kendall, Wis.

Mr. Taylor gave his occupation as a laborer. They will make their home in La Crosse.

### BANK ROBBERS GET \$6,000

SIoux CITY, Ia., Nov. 7.—Robbers blew the safe of the bank at Canova, S. D., this morning and secured \$6,000. A posse pursuing.

The robbers entered the town on horseback, shooting at everybody who appeared in the streets. They broke the window of a hardware store and stole guns. Then part of the gang shot at the residents while their pals looted the safe. They over-looked thousands of dollars.

MINNESOTA AND THE NORTHWEST

ANGRY SALOONMEN PLAN RETALIATION  
NEAPOLIS  
MAY CLOSE UP ENTIRE TOWN  
Street Car and Sunday Theater May Come Under Ban of Mayor, Provided He Accedes to Demand  
MINNEAPOLIS, Minn., Nov. 7.—Minneapolis saloon men do not like the 11 o'clock lid and as a result are again seeking means to be avenged. They threaten to tie up everything on Sunday including the street cars, theaters, cigar stands and fruit and candy stores. Old fashioned blue laws will be enforced if they have their way.  
A meeting of saloon keepers interested was held yesterday, but nothing was given out except that the men are in the right this time for certain and will not give up until they have won their point or are defeated.  
"We mean business this time," said one of the saloon keepers. "Just watch next Sunday and see what the blue laws will do. There won't be a street car running for one thing, and the whole town will be closed tight."  
The effort of the saloon men of the state some time ago to secure revenge for the general order to close shop on Sundays ended in a dismal failure. But now the Minneapolis men claim they will be successful. They say the laws must all be enforced if any are, and have intimated that they will at once call upon Mayor Haynes to close the theaters and stop the street cars.  
Sunday Theater Safe.  
Legal advice will be secured by the saloon men, but as yet it is believed they have made their plans only on their own knowledge of the law. Mayor Haynes says he has never heard of a state law against Sunday theater, although there is a city ordinance. He is not prepared to say just what he will do in case the saloon men demand that the show houses be closed on the Sabbath.  
Mayor Haynes and Chief of Police Corriston held a conference yesterday morning and decided that the first night of the early closing lid had been very satisfactory. No disturbances occurred and the saloons closed promptly on the hour. The crowd of well-filled saloon frequenters that usually take the street cars immediately after midnight were seen on the streets for a short time after eleven, but soon disappeared to their homes, and the midnight cars were noticeably free of the disorderly element or noisy and boisterous drunks.  
It has been suggested that the demand on the part of the ministers was a political move on the part of certain factions who oppose the mayor, but the ministers stoutly deny such an imputation against their sincerity. As evidence of their interest in civic affairs they have now formed plans for a civic federation of all clubs and associations interested in that line of work, such as the Anti-Saloon league, the Home Protective league, the Woman's Christian Temperance union and the Christian Endeavor. This federation will perfect plans for the continuation of work among the lower elements of the city in an effort to clean up the town and to furnish a constant fight against vice.  
QUESTION OF HOW HE GOT OVERCOAT  
Did Jack G. Thompson steal an overcoat from Otto Sebango, or did he borrow the coat?  
Jack swears he secured the coat as a loan, while Sebango is equally positive that theft brought the coat into the hands of Thompson. So positive was Sebango that he secured a warrant for the arrest of Thompson yesterday.  
Judge Brindley will decide Thompson's method of financeering an overcoat deal this afternoon.  
HITCHCOCK ON STAGE  
NEW YORK, Nov. 7.—Raymond Hitchcock, the actor, last night went directly from his lawyers' office after filing the bail bond to the Astor theatre. He entered the stage door just seven minutes before the curtain was to rise on "The Yankee Tourist." Wallace Beery, his understudy, was made up for the part, but Hitchcock insisted upon going on.  
No effort was made to interfere with his wishes and he got into his clothes quickly. The theatre was scantily filled and it was some little time before it dawned upon those in the orchestra that it was the real Hitchcock and not the understudy. When he was recognized he was applauded. He played his part without a break, though he looked haggard and drawn.  
"Mr. Hitchcock," said Henry Goldsmith, a lawyer who appeared in the case for the first time, "has given himself up for the purpose of vindicating himself. He is prepared to show that the charges against him are false and malicious and will stay right here until his reputation is cleared."  
Society has become disagreeable lately, he women talk so much about the scarcity of hired girls.

By order of the Court, JOHN BRINDLEY, County Judge. Cured of Bright's Disease Mr. Robert O. Burke, Elmore, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from twelve to twenty times a night, and I was all bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. HAYTON, Wis., Nov. 7.—Dynamite, detective and a general state of tense excitement are factors in the Thomas Weeks arson case which attracted notoriety a year or so ago. Weeks, whose barn was burned by incendiaries, it is said is a wealthy farmer of advanced age, who, after his barn burned announced his intention of running to earth the miscreants who started the fire. He has, it is claimed, kept detectives employed on the case, with the result, that suspicion has fastened upon people in the neighborhood. Simultaneously with the leaking out of this story it is declared that a large quantity of dynamite was found concealed under the porch of

### FATAL ELEVATOR KILLS A BANKER

SECOND TRAGEDY IN MILWAU-  
KEE BUILDING

### VICTIM DIES IN AN HOUR

Caught in Gates and Leg Torn from  
Socket—Victim Planned to At-  
tend Dinner at Time

MILWAUKEE, Wis., Nov. 7.—Lucius D. Hinkley, president of the National Bank of Waupun, Wis., secretary and treasurer of the Althouse-Wheeler company, Waupun, was crushed in an elevator accident in the Wells building yesterday afternoon, and received injuries from which he died within an hour. Mr. Hinkley was on his way to attend a dinner of the Loyal Legion, of which society he was a member, when the accident occurred. Mr. Hinkley attempted to board the car on the second floor. The elevator man says the gates were closed; that Mr. Hinkley attempted to squeeze through about one foot of space. Nothing more is known, until the body of Hinkley was found flat in the car, the victim lying on his back. A gash was inflicted across the thigh. The leg was torn from the socket. There were four passengers in the car, and all assisted Hinkley to his feet. The injured man was given immediate medical attention and later was taken to the Lakeside hospital, where he died within an hour. The extreme loss of blood is believed to have been one of the causes of death. Mr. Hinkley was born in Berlin, Conn., in 1835, and came to Wisconsin in 1848, when only 13 years of age. His father engaged in business at Waupun, and the son succeeded him.

### EVELYN ROMADKA CHANGES HER PLEA

MILWAUKEE, Wis., Nov. 7.—Evelyn Romadka, wife of the millionaire trunk manufacturer, who pleaded guilty to several indictments for burglary in Chicago Tuesday, has changed her plea to not guilty, according to advice received by relatives here today. The change in plea was made on advice of Attorney John F. Donovan, counsel for the fair prisoner.

the Weeks home just in time to prevent its being set off by means of a fuse.

There seems to be ground for crediting the dynamite story that is current here. Further events in connection with the matter are looked forward to with much interest, of not apprehension.

### DEATH AND ACCIDENT TOLL IN GAME FIELDS

HARTFORD, Wis., Nov. 7.—C. Zaun, aged 15, son of Mr. and Mrs. William Zaun, of the town of Jackson, was accidentally shot and killed by Louis Laverrenz. The accident happened on a farm a couple of miles from their homes. Young Laverrenz saw a squirrel on the fence and unnoticed by the boy on the other side of the fence, stopped and fired a shot at the squirrel with a 32-caliber rifle. The Zaun boy was struck by the bullet, which passed through his body just below the heart and killed him instantly.

MARKESAN, Wis., Nov. 7.—While climbing through a barbed wire fence in the woods near his home, a shotgun carried by Herbert Evans, aged 13, was accidentally discharged and the load took effect in the boy's left arm, which was badly mangled.

MARINETTE, Wis., Nov. 7.—William Kolanda, a farmer boy, while on a hunting trip near Wabeno, accidentally discharged the gun he was carrying, the charge entering his left hand, partly tearing it away.

It appears that Bemke and Wackrow paid attention to the same girl. Wackrow's horse mysteriously disappeared, and it develops that Bemke was charged with taking it. In the quarrel, Bemke pointed a gun at Wackrow, who ran away, and injured an eye by running into a protruding branch of a tree. Bemke pleaded guilty to the charge of pointing a gun but does not admit the horse mix-up.

### RHINELANDER OF AGE

RHINELANDER, Wis., Nov. 7.—(Special.)—Rhinelander is now out of her teens. The twenty-fifth anniversary of the founding of this city this week. The city has grown to a commercial center of 6,000 odd people. It was named after President Rhinelander of the Chicago, Lake Shore & Western railroad, now the Ashland division of the Chicago and Northwestern. The first newspaper was established in 1882.

A Hard Debt to Pay. "I owe a debt of gratitude than can never be paid off," writes G. S. Clark, of Westfield, Iowa, "for my rescue from death, by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed imminent, when I commenced taking New Discovery. The ominous dry, hacking cough quit before the first bottle was used, and two more bottles made a complete cure." Nothing has ever equalled New Discovery for coughs, colds and all throat and lung complaints. Guaranteed by O. T. Erhart, druggist, 50c and \$1.00. Trial bottle free.

### MAKE YOUR OWN MEDICINE

Costs Less and You Know What You are Taking. Fifty years ago there were very few Patent Medicines on the market. Our Grandparents used to buy the simple Drugs, take them home and mix them themselves. Then they knew just what they were taking, then too it cost a great deal less, for instance, in the average dollar bottle of Patent Medicine there are about 24 to 30 doses, while you get from 80 to 100 when you mix the ingredients yourself.

Here is a simple mixture for stomach troubles, that you can mix yourself and you will get more doses than you'll get in two ordinary bottles of Patent Medicine. Then too, you know what you are taking.

Here it is, try it: Compound Tincture of Cinchona, one ounce; Proseune Compound, one ounce; Sherry Wine half a pint. Mix together and take a teaspoonful before meals and at bed time in water.

### PLANS AGAINST THE TAX DODGERS

MILWAUKEE, Nov. 7.—(Special.)—A "school for tax assessors" is the latest enterprise of William F. Hooker, ex-newspaperman, guardian angel of Sherbie Becker, the boy executive, and tax commissioner of Milwaukee, who has gained national fame by his work in running down tax dodgers. Mr. Hooker has just returned from a trip through the east to find new methods for killing dodgers, and this knowledge he will instill into his trusty assistants. The school will hold session in the city hall six hours every day, but Saturday, between 8 a. m. and 12 p. m. He will have as assistant teachers, Assistant City Clerk Poss and others.

### LOGGING SEASON ON

EAGLE RIVER, Wis., Nov. 7.—(Special.)—The logging season is now in full swing in the forests of Northern Wisconsin and the Upper Peninsula, and hundreds of lumber jacks have made their way northward through this place during the last ten days. The activities of the various lumber companies, however, are confined this year, and the depletion of the forests during the past years marks the decline of the lumbering industry, which has always been one of the prominent industries of Wisconsin. The state's large factories have eaten away at the forests until now there is comparatively little left.

### TO RECEIVE MEYER

MILWAUKEE, Wis., Nov. 7.—Postmaster David C. Owen is making arrangements for a visit to Milwaukee by Postmaster George W. L. Meyer. In case Mr. Meyer comes, a big reception will be held, and no doubt all Wisconsin postmasters will be invited to attend.

### STATE IN BRIEF

APPLETON — Local barbers who recently raised the price of shaves to 15 cents have gone back to the 10 cent bases.

BELOIT — Beloit's new Isolation hospital will be located on the Geo. Merrill farm: just northwest of Beloit. At the session of the aldermen Tuesday night the twenty acre tract offered by Mr. Merrill for \$2,000 was reported favorably upon.

CHIPPewa FALLS — Judge Jenkins in the municipal court declared illegal the city ordinance providing for the payment of \$3 a day by persons who carried on the business of peddling or canvassing in the city. It is probable that the city council will amend the ordinance.

CHIPPewa FALLS — A campaign with the purpose of placing the lid on the saloons of this city has been inaugurated by W. G. Humphrey of Milwaukee, superintendent of the State Anti-Saloon league, and J. S. Soder of Eau Claire, district superintendent of the league.

CHIPPewa FALLS — Thirty-four Finlanders were put off Wisconsin Central train here because they had no tickets or any money with which to pay their way to Chicago. They claimed that they had been working for a contractor on the railroad at Somerset for three months and were discharged and given time checks which could only be cashed in Chicago. The city authorities will take the matter up and arrangements made whereby the stranded men can be taken to Chicago.

FOND DU LAC — Being a member of a school board is not a sufficient excuse to escape serving on a jury panel, according to Judge Fowler. F. W. Kingsbury of Ripon asked to be excused from service for that reason, but the court told him that he didn't think the statute was elastic enough to take in a school board.

KENOSHA — Miss Anna McCullough, a Kenosha county patient at the hospital for the insane, who escaped from Racine on Monday, was found at the home of John Sershen here Monday night. The woman claims to be perfectly sane, and insists that she will not remain at the Racine hospital.

OCOnton — The frequency of fires in the vicinity of Abrams, Brookside and Little Saumico in the last few weeks has caused a feeling of fear among people, and especially farmers residing in that vicinity. No less than three barns have been burned lately, and it is claimed that all of the fires were of incendiary origin.

RACINE — Charles H. Lee on Wednesday tendered his resignation as treasurer of the Taylor Orphan asylum. Mr. Lee has held the office

under election for twenty-five years, and a number of years previous to that period. His reason for retirement is the fact that other interests require all of his attention.

RACINE — Cabbage growers in this vicinity have been suffering greatly from thieves, carrying away tons of cabbage. Detectives were placed and last night Thomas Larson, a large grower, caught a man in his field and grappled with him. The stranger insisted that he was the assistant chief of police of Racine, but it developed after he was allowed to go that no policemen were out around the cabbage belt.

RACINE — When Assistant Postmaster Thomas Leslie opened his private mail Wednesday morning he was astonished to see a live mud turtle crawl out of a package. It has been sent to him from Memphis, Tenn., by an unknown friend. The turtle was presented to J. T. Foster, owner of the water company zoo.

PORTAGE — Timothy Kelly, a farmer, was struck by a passenger train near Lyndon on Wednesday and perhaps fatally injured.

SHEBOYGAN — Slaughterling cattle within the city limits is to be stopped in the future. All of the local butchers have been notified to stop the practice, as the state officials have notified the local authorities that the law must be strictly enforced.

SHEBOYGAN — A census of the Austrian population of Sheboygan shows that there are 802 Austrians in the city, of whom 641 are adults and the remaining 161 children.

WASHBURN — While on their way to Iron River, yesterday the train crew of the Northern Pacific railway discovered the remains of a man lying beside the track. Nothing was found about the dead man by which the body could be identified.

### MAY STOP RACES IN OLD KENTUCK

FRANKFORT, Ky., Nov. 7.—The election of Willson as governor of Kentucky may put a stop to thoroughbred and harness horse racing in Kentucky. Willson for years, has opposed racing.

It is harder to beat a por carpet than a good one.

### TO PRETENDERS.

A Wholesome Word for Guidance.

Just a word to you, "Collier's" and other glaring examples of Modern Yellow Journalism and Cigarettes. Environment gives you a viewpoint from which it is difficult to understand that some people even nowadays act from motives of old fashioned honesty.

There are honest makers of foods and healthful beverages and there are honest people who use them. Perhaps you are trained to believe there is no honesty in this world. There is, although you may not be of a kind to understand it.

Some of you have been trained in a sorry class of pretenders, but your training does not taint the old fashioned person trained without knowledge of pretense and deceit.

These letters came to us absolutely without solicitation. We have a great many thousands from people who have been helped or entirely healed by following the suggestions to quit the food or drink which may be causing the physical complaints and change to Postum Coffee or Grape-Nuts food.

You are not intelligent enough to know the technical reasons why the change makes a change in the cells of the body. Your knowledge, or lack of knowledge, makes not the slightest difference in the facts.

You can print from old and worn plates all the cheap books your presses will produce and sell them as best you can, but such acts and your "learned" editorials are but commercial, and seek only "dollars" and much by pretence.

When you branch out into food values you become only ridiculous. Stick to what you know. The field may be small but it is safe.

This first letter is from the President of the "Christian Nation," a worthy Christian paper of New York.

New York, Oct. 2, 1907. Postum Cereal Co., Ltd.

Battle Creek, Mich. Dear Sirs: I am, this morning, in receipt of the enclosed mighty good letter from one of my subscribers, which I forward to you, and which I am sure you will be glad to use. I am personally acquainted with this lady, and know that she has no object in writing, other than to do good.

Cordially, John W. Pritchard, Pres. Brooklyn, N. Y., Oct. 1, 1907.

Dear Mr. Pritchard: Noticing Postum Food Coffee advertised each week in your reliable paper, I concluded to try it, and feeling it a duty towards those who may have suffered as I have from indigestion, desire to state what wonderful benefit I have received from Postum although using only a short time, and not do, I alone realize and appreciate its good effects, but friends remark, "How much I have improved and how well I look," and I tell the facts about Postum every time for instance using it I have not had one attack of indigestion. It is invigorating, healthful, does not affect the nerves as ordinary coffee, and if properly made, a most delicious drink. Although I have not had much faith in general advertising, yet finding Postum has done so much better for me than I expected I am more inclined to "Prove all things, hold fast that which is good." I am so thankful for good health that I want it known what a blessing Postum has been to me. You may use these few lines as an ad. if you so desire and my name also.

Very truly yours, Anna S. Reeves. 275 McDonough St., Brooklyn.

Coffee hurt her, she quit and used Postum. She didn't attempt to analyze but she enjoyed the results. Underneath it all "There's a Reason." POSTUM CEREAL CO., LTD.
